# INTRODUCTION

Like a finely tuned team working in unison, manganese alloys are crafted by blending minerals containing compounds of iron and silicon manganese. This combination results in materials that boast strength, durability, and electrical performance of the steels to which alloy is added.

Today, the manganese alloy market is entering a high-growth phase, fuelled by several strategic drivers:

**Building the Future:** Rapid expansion in infrastructure and construction sectors is propelling steel demand—and with it, manganese alloy consumption.

**Driving Innovation:** The automotive industry is pivoting towards lighter, more efficient materials to reduce emissions, opening the door wider for manganese alloys.

**Powering Sustainability:** The renewable energy sector is turning to manganese alloys for their strength in applications like wind turbines and solar components.

**Game-Changing Technology:** New advancements in alloy processing are setting the stage for diversified industrial use.

Market forecasts project a healthy **7.79% CAGR from 2022 to 2030**, reflecting robust global demand and ongoing innovation.

At **Maithan Alloys**,  
every year is a new season—and  
**2024-25 was a championship year.**  
We delivered peak performance across  
financial and operational metrics:

**Profit Before Tax:

# THE FIELD OF *Opportunity*

## **Expanding Our Global Playbook**

Maithan Alloys Ltd. stands as a frontrunner in the Indian manganese alloy industry, with a reputation for excellence that extends far beyond national borders. We specialize in high-grade manganese alloys and play a pivotal role on the global field. Our cutting-edge production facilities and relentless focus on innovation enable us to meet the evolving needs of steelmakers worldwide.

Through strategic partnerships and a commitment to quality, Maithan Alloys has built a worldwide network of trust. We're not just bridging markets—we're laying down the turf for a global league of progress and performance.

## Laying the Foundation for Future Champions

Welcome to the Annual Report of Maithan Alloys Limited.

This year's theme, "**Sports,**" serves as a metaphor for how we connect: people, ideas, industries, and futures. Like sports cuts across barriers like race and boundaries, and inspires and celebrates hard work and achievement, Maithan Alloys links resources to results, talent to opportunity, and innovation to impact.

We're committed to creating a winning culture grounded in:

**Operational precision**

**Stakeholder alignment**

**Resilient growth**

This is our training ground—a place where commitment meets preparation and every challenge is a stepping stone to greatness.

# Playing Fair. Playing to Win.

At Maithan Alloys, our purpose drives us like a team chasing victory—fuelled by values, powered by innovation, and guided by sustainability.

Our vision is bold: **To be India's most respected alloy company.** We play the long game, building trust with stakeholders, delivering unmatched value to customers, and creating an empowering environment for employees.

We move ahead by staying grounded—focused on hard work, purpose, and people. This approach ensures not just growth, but enduring leadership on the world stage.

# VISION STATEMENT

To be India's premier alloy company that is built on the solid foundation of shareholder trust, customer commitment, employee satisfaction and sustainable communities. To consistently deliver on our promises backed by meticulous hard work is our motto for ensuring success.

At Maithan, we fuel progress through energy and efficiency—not only in our alloys but also in our outlook. We aim to transcend limits, transforming potential into achievement as producers, partners, and pioneers.

We face challenges head-on, with heads held high and values firmly rooted in the ground beneath us. This balance is what powers our sustainable journey forward—for ourselves and those we serve.

**Ensuring excellent shareholder value:**

Generate a high ROCE coupled with lower-than-market debt ratios.

**Nurturing our employees:**

Ensuring employee growth by creating a secure and stress-free working environment that encourages hard work and expanding knowledge base.

**Commitment to our customers:**

Irrespective of the market conditions, we will always strive for the highest product standards that will in turn ensure complete customer satisfaction.

**Caring for our communities:**

A clean environment, education, housing, health and sustainability for our communities will always remain our mission.

# “Giving Back To Society”

- Maithan Alloys stands as a beacon of unwavering commitment to social responsibility, transforming lives and empowering communities through its impactful CSR initiatives.
- The company has played a pivotal role in areas like Education, Healthcare, sports and community welfare, which we think needs our attention.
- Over the years, we at Maithan Alloys have been doing our bit to make a difference.

## **BMA Foundation :**

- Founded in 2017, BMA Foundation was set up to drive the various philanthropic initiatives of Maithan Alloys Ltd.
- Throughout our journey, we have made a difference to the lives of people across India.
- From the remotest villages and towns to metropolitan cities, we have nurtured stories of hope, resilience, and transformation.
- We are creating change in the areas of Rural Transformation, Health, Education, Sports for Development, Disaster Response, Culture & Heritage.

## **Education Support:**

- We aim to provide opportunities for the young to develop themselves into future citizens who contribute to society. We support various educational organisations towards the same.
- The trust has also set up a school in Neamatpur – Asansol.
- Donated a new school block to Government Girls Higher Secondary School, Acharapakam, TN, fostering better learning opportunities.

## **Healthcare Contribution:**

We are committed to enhancing India’s healthcare ecosystem through community health initiatives and health outreach to vulnerable communities.

### **We support:**

- Guru Gangeshwar Bhuramal Nishulk Netra Chikitsa Sewa sansthan, Vrindavan: A clinic providing free health check-up and medicines.
- Provided an X-Ray machine to Kanchi Kamakoti Childs Trust Hospital for improved medical care.
- We also carry out food distribution, health check-ups and provides medicines for locals from villages nearby our plant.

## **Community Welfare:**

- Organized blood donation camps at are Vizag unit to support healthcare needs.
- Provided groceries and essentials to underprivileged individuals through ICHA Foundation.
- Sponsored an RO Plant at Junguluru Village, ensuring clean drinking water access.

## **Green Environment**

- Our initiatives enhance India’s green cover through nature-based solutions like tree plantation drives. Focusing on indigenous tree species, suited to the local climate and soil conditions.

## Empowering Champions: Maithan's Commitment to Sports

At Maithan, we believe in nurturing talent and fuelling ambition. Through our sports sponsorship initiatives, we proudly support some of India's most promising athletes. Their achievements reflect not only personal excellence but also the spirit of resilience and national pride we stand behind.

**Minakshi Hooda - 48kg Boxer**

Minakshi Hooda's meteoric rise in Indian boxing is a testament to her grit and skill. Her recent performances have placed her among the elite in international competition:

### Gold Medal

Elorda Cup International, 2024, Elite Women's National Boxing Championship, Noida 2025, Elite Women's National Championship, 2023, National Games, 2022

### Silver Medal

World Boxing Cup Stage 2, Astana 2025, Elite Women's National Championship, 2021

### ASBC

Asian Boxing Championships, 2022

Notably, Minakshi has defeated world-class opponents including Nitu Ghanghas and Rahmonova Saidahon, showcasing her dominance in the ring.

**Shiksha Narwal - 54kg Boxer**

Shiksha Narwal has consistently proven her mettle across national and international platforms:

### Gold Medals

Senior National Championships (Noida, Bhopal, Hisar, Haridwar)

### Silver Medal

Stranza Cup, Bulgaria, South Asian Games

### Bronze Medals

Asian Championship (Vietnam), Senior Nationals (Rohtak, Hyderabad 2025)

### Represented India

World Championships, Turkey

Her journey is a blend of experience, endurance, and excellence.

# “Giving Back To Society”

**Jyoti Gulia - 51kg Boxer**

Jyoti Gulia's achievements span youth and senior levels, marking her as a formidable force in Indian boxing:

**Gold Medal**

World Championship, India, Senior Nationals (Noida, Kerala, Hyderabad 2025), Youth National Championship, Delhi

**Silver Medal**

Youth Serbia International Cup, Senior Nationals, Bhopal

**Bronze Medal**

Youth Italy International Competition, Senior Nationals, Hisar

**Qualified**

Youth Olympic Trials

Her consistent podium finishes showcases her dedication and rising global stature.

**Bharti – Emerging Talent**

Bharti represents the next generation of boxing talent, with a strong foundation built through school, university, and youth competitions:

**Gold Medals**

School National Championship, Junior International, Youth Nationals, REC Nationals

**Silver Medal**

Senior Open National Championship, 63rd School Nationals, REC Combined Tournament, All India University Championship

**Bronze Medal**

Youth Ireland International Tournament, All India University Boxing Championship

**Participation**

Khelo India University Championship, National Games

Her journey reflects Maithan's commitment to nurturing talent from grassroots to elite levels.

These athletes continue to inspire future generations and elevate India's presence on the global sports stage. We are proud to stand in their corner.

**Sima Dutta Chatterjee –  
International Powerlifting Icon**

A powerhouse from Durgapur, West Bengal, Sima Dutta Chatterjee is a decorated international powerlifter and certified national referee. Her achievements span multiple continents:

**Gold Medals**

6 Golds at the Commonwealth Championship (New Zealand, 2022)

**Bronze Medals**

Bronze medals at the World Championship (South Africa, 2023)

**Strongest Woman** titles across Asia-Pacific-African meets

Over **50 medals** across national, state, and district levels

Academic excellence paired with coaching credentials in fitness, yoga, and aerobics

Sima exemplifies strength, discipline, and leadership—both on and off the podium.

**Shyamali Singh –  
Marathon Champion**

A resilient long-distance runner from West Bengal, Shyamali Singh has earned national acclaim through her consistent podium finishes across India's premier marathons. Her accolades include:

**Gold Medals**

Jaipur, Prayagraj, Kochi, and Nasik Marathons

**Silver Medals**

Standard Chartered Mumbai Marathon and Maharashtra Police International Marathon

**Bronze Medals**

Tata Mumbai Marathon (2020 & 2024) and Aizawl International Half Marathon

Overcame a brain tumor in 2020 and made a triumphant return to competitive racing

**Represents Bengal**

at national championships with aspirations to compete internationally in 2026

Her story is one of grit, perseverance, and an unwavering commitment to excellence.

**Sports Sponsorships:**

- Sponsored Ananya Pravin at Bahrain International Series 2024, where she won Gold with her partner.
- Sponsored Shivani Agarwalla, who represented India at IKMF World Championship 2024 and secured Gold.

**Maithan Alloys Ltd** is also supporting budding Indian boxers by providing essential equipment and requirements to 20 young boxers. This initiative has significantly contributed to their development and success on the National stage. Some have already been selected for International Training Camps too.

## **Successful people...**

They relax by working. They sleep with a dream,

# Striving. Achieving. Inspiring.

At Maithan Alloys Ltd., every endeavour is driven by the pursuit of excellence, where **performance meets purpose** in a way that shapes lasting success. Like athletes on the field, we set ambitious goals, push boundaries, and persevere through challenges—because every milestone we achieve is more than just a number; it's a legacy built on dedication, strategy, and resilience. From innovation in alloy manufacturing to sustainable practices that empower communities, we are constantly **striving** to be better, **achieving** new heights in global markets, and **inspiring** change that goes beyond business. Just as every goal scored in sports echoes through history, every success at Maithan Alloys strengthens our foundation for the future—creating impact, driving growth, and leaving an indelible mark of excellence.

# Chairman's Statement

Dear Stakeholders,

As we reflect on the fiscal year 2024-25, I am proud to report that Maithan Alloys Ltd. has demonstrated resilience and strategic foresight in navigating a challenging economic landscape. Despite facing significant headwinds—including volatile raw material prices, escalating energy costs, and global geopolitical tensions—the company has maintained its commitment to operational excellence and sustainable growth.

Our performance underscores the strength of our business model and the dedication of our team. We have not only weathered the storm but have also positioned ourselves for long-term success. This report outlines our achievements, challenges, and the strategic initiatives that will drive our future growth. Your unwavering commitment and resilience have been instrumental in navigating the complexities of an evolving global market.

The Ferro alloys industry has witnessed significant shifts, shaped by geopolitical factors, economic fluctuations, and rising operational costs. Despite these challenges, Maithan Alloys has remained steadfast, demonstrating financial prudence and strategic agility. Our ability to sustain profitability and operational efficiency in an unpredictable environment is a testament to our collective dedication and vision.

To our shareholders and investors: we deeply appreciate your trust and belief in our long-term growth strategy. We are committed to maximizing shareholder value by expanding our market presence, investing in cutting-edge technologies, and enhancing efficiencies across our operations. The fiscal year ahead presents new opportunities for expansion and product innovation, reinforcing our position as an industry leader.

To our workforce: you are the driving force behind Maithan Alloys. Your hard work and dedication ensure the seamless functioning of our operations, and we remain committed to fostering a safe, inclusive, and growth-oriented work environment. Initiatives in skill development, workplace safety, and career progression will continue to be our priority, ensuring that every team member is empowered to reach their full potential.

To our management team: your strategic vision and execution remain pivotal in steering Maithan Alloys towards sustained success. In an era of rapid industry transformation, your leadership and adaptability have been invaluable in maintaining operational resilience and driving new avenues of growth.

Beyond business success, we recognize our **responsibility toward sustainability** and **community engagement**. As a responsible corporate entity, we have prioritized environmental stewardship by optimizing resource efficiency, and integrating sustainable practices into our production processes. Moreover, we continue to support initiatives that uplift local communities, investing in education, healthcare, and skill-building programs to create meaningful social impact. As we look ahead, Maithan Alloys remains committed to excellence, innovation, and responsible growth. We are focussed on driving innovation by harnessing global trends in business strategy. With a shared vision and collaborative spirit, I am confident that we will continue to forge new pathways to success and contribute meaningfully to society.

Thank you for your trust and support. Together, we will shape a stronger, more sustainable future.

Warm regards,

Sincerely,

**Mr. S. C. Agarwalla**

# Management Discussion & Analysis (MD&A)

## (A) Economy Overview and Outlook .

### Global Economy

The latest outlook from the International Monetary Fund (IMF) projects **global growth at 3.3 % in both 2025 and 2026**. For emerging markets and developing economies, growth over this period is expected to broadly align with 2024 levels. Global headline inflation is forecast to ease to **4.2 % in 2025** and further to **3.5 % in 2026**, with advanced economies anticipated to return to target inflation rates sooner than their emerging and developing counterparts.

Nevertheless, uncertainty stemming from elevated tariff regimes and policy-driven disruptions could complicate the shift toward more accommodative monetary policies, raising concerns for fiscal sustainability and financial stability. Navigating these risks will require a careful balance between inflation management and real economic activity, coupled with efforts to rebuild policy buffers, advance structural reforms, and reinforce multilateral cooperation.

Despite persistent geopolitical frictions and trade uncertainties, particularly those arising from evolving U.S. tariff policies, **global growth is expected to remain resilient in the coming years**. This stability will be underpinned by moderating inflation, supportive monetary conditions, stronger consumer demand, and robust investment momentum.

## Indian Economy

In India, growth is projected to be at 6.5 % in the years 2025 and 2026 significantly outpacing global and regional peers. From modernising infrastructure to simplifying taxes, these measures are fuelling domestic growth and positioning India as a cornerstone of global economic stability.

The Government of India has introduced a series of visionary policies and initiatives aimed at driving sustained growth and strengthening the country's role in the global economy. From large-scale infrastructure projects to fostering innovation in manufacturing, the digital economy, and financial inclusion, these measures are transforming key sectors. Stable domestic demand, coupled with growth in agriculture and services, continues to underpin economic performance. Collectively, these efforts highlight India's commitment to building **a resilient, self-reliant, and globally competitive economy.**

Capital expenditure by the Government of India has been a key contributor to India's impressive growth. It has been investing heavily in infrastructure with ₹ 11.11 lakh crores being allocated for capital expenditure in the Union Budget 2024-2025 and a capital expenditure of ₹ 11.21 lakh crores being set aside for FY 2025-2026.

India's foreign exchange reserves stood around US \$ 676.3 Billion as of 4 April 2025. The management of foreign exchange reserves, which provide a cushion against exchange rate volatility, was prudent throughout the year.

Indian Rupee opened at a level of ₹ 83.36 against US Dollar on 1 April 2024 and closed at ₹ 85.45 on 31 March 2025.

Repo rate, which was 6.50 % in the beginning of the financial year, has been progressively reduced to 6.25 % during the financial year. On 9 April 2025, the RBI has announced a 25 bps reduction in the repo rate, bringing it down to 6 %.

## (B) Industry Overview and Outlook

### Steel Industry

The steel industry plays a pivotal role in economic development and is often regarded as a key indicator of industrial growth. While global steel demand registered a marginal decline during the year under review, robust consumption in India and Brazil helped offset sharper losses worldwide. India, the world's **second-largest steel producer after China**, continues to demonstrate strong resilience and growth momentum in this sector.

India is currently experiencing the fastest pace of steel demand expansion since the global financial crisis. Forecasts suggest that domestic demand will grow by 8–9 % in 2025, far exceeding the growth rates of most other economies. This strong outlook underscores the sector's dynamism, fueled by multiple demand-side drivers.

The surge in demand is primarily linked to the increasing use of steel-intensive construction in residential housing and infrastructure projects. Major government programs—such as Housing for All and large-scale infrastructure development—are acting as key catalysts. Rising demand from engineering, packaging, and industrial manufacturing sectors is further expected to reinforce this momentum.

However, a growing challenge for the industry has been the sharp increase in steel imports over the past two years, which has turned India into a net importer of steel. In FY25, imports rose to **9.5 million metric tonnes (MMT)**—the highest since FY16—driven largely by inflows of flat steel products from China, Korea, and Japan.

# Sectoral Factors Influencing India's Near-Term Steel Consumption Outlook in India :

- **Infrastructure Capex:** The trend of rising public capital expenditure is expected to continue, with the central government budgeting ₹11.2 trillion for FY 2025-26. Long-term, interest-free loans to state governments will further support state-level capex. Modernisation of railways and the development of high-speed highway corridors remain key priorities in transport infrastructure.

- **Real Estate:** Residential real estate launches are set to accelerate in FY 2025-26, supported by declining unsold inventory. Commercial real estate is also gaining momentum, driven by the rapid expansion of Global Capability Centres (GCCs) and Data Centres.

- **Public Housing:** The PM Aawas Yojana (PMAY) has been extended with a target of constructing 20 million additional houses over the next five years. With guidelines finalised last year, the scheme's implementation is expected to gather pace in FY 2025-26.

- **Private Capex:** Private investment is being buoyed by production-linked incentive schemes, improving capacity utilisation, stronger corporate balance sheets, and an easing monetary policy. While global trade headwinds pose some risks, supply chain realignments are expected to be supportive in the medium term.

- **Consumer Durables:** Demand prospects remain positive, aided by rural consumption recovery, improving consumer confidence, lower interest rates, and easing food inflation.

- **Automobiles:** The auto sector is expected to grow steadily, supported by new model launches (particularly EVs), infrastructure expansion, replacement demand, and incentives for e-buses. While auto exports have strong medium-term prospects, near-term trade-related challenges warrant attention.

- **Defence Manufacturing:** The government's focus on defence preparedness, indigenisation of procurement, and higher global defence spending are likely to stimulate growth in domestic defence manufacturing and exports.

Increased demand for steel production will provide a favourable domestic outlook for Ferro Alloys consumption

# The Role of Ferro Alloys in the Indian Steel Industry

Ferroalloys form the backbone of steelmaking, as they are essential for imparting strength, ductility, toughness, and resistance to wear and corrosion. By acting as deoxidizers, desulfurizers, and alloying agents, ferroalloys improve the quality and performance of steel products, making them indispensable to India's fast-growing steel industry.

## 1. Critical to Steelmaking Process

- o India, the second-largest producer of crude steel globally, ferromanganese, silicomanganese, ferrochrome, and ferrosilicon.
- o These alloys play a crucial role in refining molten steel, removing impurities and enhancing mechanical properties.

## 2. Demand Driven by Infrastructure and Manufacturing

- o India's steel demand is being propelled by infrastructure expansion, housing, automotive, engineering, and manufacturing growth.
- o With government initiatives such as Housing for All and Make in India, steel consumption—and consequently ferroalloy demand—is expected to grow consistently at 8–9% annually in the medium term.

## 3. India's Strong Position in Ferroalloy Production

- o India is among the largest producers and exporters of manganese alloys globally, supplying both domestic and international markets.
- o Ferroalloy clusters in Odisha, Chhattisgarh, Jharkhand, and Andhra Pradesh are strategically located near raw material sources and ports, strengthening supply chains.
- o This domestic availability supports India's steelmakers, ensuring stable access to critical inputs.

## Regional Outlook: Global Ferroalloys Market

### 1. Asia-Pacific — The Dominant Force

- **Market Share & Growth:** Asia-Pacific held a commanding ~62% share of global ferroalloys revenue in 2023–2024, driven largely by major producers like China and India turning industrialization into strong demand for steel and associated alloys.
- **Forecast:** From a base of about USD 33.9 billion in 2024, Asia-Pacific's ferroalloys market is expected to grow to USD 76.6 billion by 2034 at a CAGR of ~8.5%.

### 2. North America — Innovation Meets Infrastructure

- **Strengths:** The U.S., as the world's third-largest crude steel producer, benefits from robust construction spending (USD 2.15 trillion as of mid-2024), fueling ferroalloys demand.
- **Shares & Growth:** In 2025, North America represented ~24.8% of the global market (~USD 14.8 billion), growing from USD 11.8 billion in 2021, with a projected CAGR of ~6.1% through 2033.

### 3. Europe — Seeking Stability Amid Challenges

- **Current Climate:** European demand is soft due to steel sector weakness, high energy costs, and geopolitical tensions.
- **Market Share:** Expected to account for ~21.6% of the global ferroalloys market in 2025 (USD 12.85 billion), with projected growth to ~USD 21.0 billion by 2033 (CAGR ~6.3%).

### 4. Latin America — Modest Yet Promising

- **Market Share:** Latin America accounted for ~6.5% of the global ferroalloys market in 2025 (~USD 3.9 billion), expected to grow to ~USD 6.5 billion by 2033 (CAGR ~6.7%).
- **Growth Drivers:** Infrastructure development and modest industrial expansion, especially in Brazil, continue to support demand.

# India's Real Estate Sector

India's real estate sector mirrors the broader optimism about the country's economic trajectory. According to the IMF's World Economic Outlook, April 2025, India's GDP has more than doubled to ~\$4.19 trillion from \$2 trillion in 2014, elevating the nation from the world's tenth- to the fifth-largest economy. By FY2030-31, India is projected to become the third-largest economy, sustaining growth of around 6.7%.

This momentum is underpinned by powerful long-term drivers: a rapidly expanding middle class, accelerating urbanisation, rising disposable incomes, fast-paced digital adoption, and ongoing structural reforms.

Government flagship programmes such as the Smart Cities Mission, Housing for All, and the Real Estate (Regulation and Development) Act (RERA) have improved transparency, strengthened regulatory oversight, and enhanced investor confidence across the real estate value chain.

Real estate is already a critical pillar of India's economy, contributing significantly to GDP and employment. According to Knight Frank, the sector is expected to grow from \$300 billion in CY2024 to \$650 billion by CY2025, surpassing \$1 trillion by CY2030 and potentially reaching \$5.8 trillion by CY2047.

Strong demand across residential, commercial, and industrial real estate, coupled with the growth of India's corporate and services sectors, continues to reinforce the sector's long-term prospects.

As India advances toward inclusive and sustainable urbanisation, real estate will remain a critical enabler—shaping cities, generating employment, and building the physical and social infrastructure required to support a rapidly transforming economy.

The Union Budget for 2025-26 continued to emphasise infrastructure development and housing while providing a boost to disposable income to drive consumption, setting a favourable backdrop for a more inclusive and balanced real estate growth story.

## Conclusion

The Indian steel industry, a cornerstone of the nation's economy, stands at a critical juncture. Government initiatives, infrastructure investments, and policy support create fertile ground for further growth. Simultaneously, the global manganese market beckons India to harness its mineral wealth and contribute on a global scale. With strategic alignment, prudent investments, and collaborative partnerships, India can forge ahead as a major player in steel and manganese, driving sustainable economic progress.

India remains a bright spot in the global steel industry and the steel demand in the country is expected to show a healthy growth, driven by strong economic growth of 7.2% projected for FY 2024-25.

Further, the positive investment climate, on the back of strong corporate profitability as well as robust bank balance sheets, bodes well for private investment cycle to kick off. In addition, the Government's plan to build additional two crore house under the PM Awas Yojana bodes well for the public housing sector outlook. Further, low inflation expectations for FY 2024-25 at 4.5% versus the FY 2023-24 average of 5.4%, could prompt the country's central bank to pivot to policy easing, which could further boost demand. With the central government staying on course to its fiscal consolidation path, with fiscal deficit estimated at 5.1% for FY 2024-25 versus 5.6% in FY 2023-24, it provides further headroom for the Government to spend on physical and social infrastructure.

According to the NITI Aayog, India has the potential to become the world's production centre for green steel and pave the way for its worldwide adoption. The Indian steel industry is leveraging the power of Machine Learning (ML), artificial intelligence (AI), and smart manufacturing to improve efficiency and strengthen sustainability.

## FINANCIAL ANALYSIS, 2024-2025

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under section 133 and other applicable provisions of the Companies Act, 2013 read with the Rules framed thereunder.

### PROFIT AND LOSS ACCOUNT ANALYSIS

#### Total income

Total income increased by 22.42% during the financial year 2024-2025, i.e. from ₹2079.94 crore in the financial year 2023-2024 to ₹2546.27 crore in the financial year 2024-2025 mainly on account of higher sales realization and increase in other income.

#### EBITDA

The Company's EBITDA increased by 91.99% during the financial year 2024-2025, i.e. from ₹465.79 crore in the financial year 2023-2024 to ₹894.28 crore in the financial year 2024-2025 due to higher sales realization and increase in other income.

#### Finance costs

Finance costs increased by 1253.19% during the financial year 2024-2025, i.e. from ₹1.55 crore in the financial year 2023-2024 to ₹20.91 crore in the financial year 2024-2025 owing to increase in borrowings.

#### Other incomes

Other income increased by 103.57% during the financial year 2024-2025, i.e. from ₹356.94 crore in the financial year 2023-2024 to ₹726.62 crore in the financial year 2024-2025 owing to gain in fair value of investments held by the company.

#### Tax expenses

Tax expenses increased by 122.60% during the financial year 2024-2025, i.e. from ₹98.04 crore in the financial year 2023-2024 to ₹218.24 crore in the financial year 2024-2025 owing to higher taxable profits.

#### Net profit

Net profit stood at ₹640.23 crore for the financial year ended 31 March 2025 as compared to ₹351.03 crore for the financial year ended 31 March 2024, registering an increase of 82.39%.

## BALANCE SHEET ANALYSIS

### Net worth

Net worth stood at ₹3684.59 crore as on 31 March 2025 compared to ₹3070.36 crore as on 31 March 2024 i.e. an increase of 20.01%. Net worth comprises of paid up equity capital of ₹29.11 crore and other equity of ₹3655.48 crore, as on 31 March 2025.

### Loan profile

Total loan funds stood at ₹565.08 crore including lease liability of ₹3.22 crore, as on 31 March 2025 as compared to ₹17.21 crore including lease liability of ₹3.31 crore, as on 31 March 2024.

### Trade payables and other current liabilities

Trade payables and other current liabilities amounts to ₹157.94 crore as at 31 March 2025 as compared to ₹127.68 crore as at 31 March 2024.

### Total assets

Total assets increased by 40.43 % during the financial year 2024-2025, i.e. from ₹3358.25 crore as on 31 March 2024 to ₹4716.14 crore as on 31 March 2025.

**2] Foreign Exchange risk and hedging activities:**

The Board monitors the foreign exchange exposures on a regular basis as well as the steps taken by the management to limit the risks of adverse exchange rate movement. Further, the currency fluctuation risk is mitigated through natural hedge resulting from the Company's export and import. During the financial year 2024-2025, the Company continued to manage the foreign exchange risk and hedged to the extent considered necessary. The Company enters into forward contracts for hedging foreign exchange exposures against its exports and imports, as and when deemed necessary. The details of foreign currency exposure are disclosed in Note No. 48 to the Standalone Financial Statement.

# REMUNERATION POLICY

(Adopted by the Board of Directors on 28 January 2019 to be effective from 1 April 2019)  
(as amended on 28 May 2025)

### PURPOSE

The Remuneration Policy of Maithan Alloys Limited (“the Company”) applies to all the Directors, KMP and other Employees on the payroll of the Company. The Board of Directors of the Company (“the Board”) have adopted this Remuneration Policy at the recommendation of the Nomination and Remuneration Committee (the “NRC”).

The policy reflects the Company’s objectives for good corporate governance as well as sustained and long-term value creation for shareholders. In addition, it ensures that:

- the Company is able to attract, develop and retain high-performing and motivated Employees in a competitive domestic market.
- Employees are offered a competitive and market aligned remuneration package making fixed salaries a significant remuneration component.

The Board has established a Nomination and Remuneration Committee to set guidelines for the review and control of compliance with the Remuneration Policy of the Company. The NRC works as an extended arm for the Board with respect to remuneration issues.

### DEFINITIONS

Words and expression used in these regulations shall have the same meanings respectively assigned to them in the Companies Act, 2013 (the “Act”) and rules and regulations made thereunder or as defined under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the “Listing Regulations”).

### PROCEDURE FOR APPOINTMENT AND CESSATION OF DIRECTORS, KEY MANAGERIAL PERSONNEL (KMP) AND OTHER EMPLOYEES

#### 1. Appointment criteria and qualifications:

- a) The NRC shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director or KMP and recommend to the Board his / her appointment.
- b) A person should possess positive attributes like resilient, practical, trustworthy, etc. apart from adequate qualification or expertise or experience for the position he / she is considered for appointment. The NRC has discretion to decide whether qualification, expertise and/or experience possessed by a person is sufficient/ satisfactory for the concerned position.

- c) The Company shall not appoint or continue the employment of any person as Executive Director who has attained the age of seventy years unless prior approval of shareholders has been obtained by passing a special resolution.
- d) The Chairman, Managing Director and/or Whole-time Director of the Company shall jointly or severally identify and ascertain the integrity, qualification, expertise and experience of the person, required for appointment as Employee(s) to carry out business operations and functions.

#### 2. Term / Tenure:

##### a) Managing Director/Whole-time Director:

The Company shall appoint or re-appoint any person as its Executive Chairman, Managing Director or Whole-time Director for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of his/her term.

##### b) Non-Executive Director:

The Company shall not appoint or continue the directorship of any person as Non-Executive Director who has attained the age limit as prescribed under the law, unless prior approval of shareholder has been obtained by passing a special resolution for his appointment.

##### c) Independent Director:

- An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board’s Report.
- No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.
- At the time of appointment of Independent Director, it should be ensured that he/ she meets such criteria of independence as prescribed under the Act, the Listing Regulations and other applicable laws.
- At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director serves, is within the limits prescribed under the Act, the Listing Regulations and other applicable laws.

#### d) KMP & Other Employees:

The Company shall appoint or re-appoint any person as its KMP or Employee upto the age of retirement of such KMP or Employee. The age of retirement of KMP or Employees shall be 58 years.

The Chairman, Managing Director and/or Whole-time Director and in case of their inability to do so the Board, shall have the power to appoint / re-appoint / retain any KMP or Employee either on contract basis or regular basis, even after their attaining the retirement age, for the benefit of the Company.

The Chairman, Managing Director and/or Whole-time Director and in case of their inability to do so the Board, shall have the power to appoint any person as a KMP or Employee on fixed tenure contract basis even such person has attained the age of 58 years, for the benefit of the Company.

#### 3. Removal:

Due to the reasons for any disqualification mentioned in the Act or under any other applicable law, rules and regulations, the NRC may recommend, to the Board with reasons recorded in writing, removal of a Director or KMP or Employee subject to the provisions and compliance of the said Act, Law, Rules and Regulations.

#### 4. Retirement:

The KMP and other Employees shall retire as per the applicable provisions of the Act and the prevailing policy of the Company. The Board will have the discretion to appoint/re-appoint/ retain the KMP and other Employees in the same position/ remuneration or otherwise even after their attaining the retirement age, for the benefit of the Company.

### REMUNERATION MATTERS

- i. To consider and determine the Remuneration, based on the principles of:
  - a) pay for responsibilities,
  - b) pay for performance and potential, and
  - c) pay for growth and ensure that the remuneration fixed is reasonable and sufficient to attract, retain and motivate the Employees;
- ii. To take into account, financial position of the Company, trend in the Industry, appointee's qualification, experience, past performance, past remuneration, etc.;
- iii. To bring about objectivity in determining the remuneration package while striking a balance between the interest of the Company and the Shareholders;
- iv. To consider other factors as the NRC shall deem appropriate for elements of the remuneration of the members of the Board and ensure compliance of the provisions of the Act and other applicable laws;
- v. To consider any other matters as may be requested by the Board.

### REMUNERATION COMPONENTS

The various remuneration components are combined to ensure an appropriate and balanced remuneration package.

#### The remuneration components are:

- Fixed Remuneration (including fixed supplements)
- Performance-based remuneration (variable remuneration)
- Other benefits in kind
- Severance payment, where applicable

#### Fixed Remuneration:

The fixed remuneration is determined on the basis of the role and position of the individual Employee, including professional experience, responsibility, job complexity and local market conditions.

#### Performance-based remuneration:

The NRC may determine a maximum percentage of performance-based remuneration relative to the fixed remuneration. This percentage may vary according to the type of position held by the Director, KMP or Employee.

Performance-based remuneration may be disbursed as cash or cash equivalents, bonus, shares, share based instruments, including conditional shares and other generally approved instruments, all on the basis of applicable local legislation.

Performance-based remuneration is granted to Employees with particular influence on Company's results and shareholder value. As an overall starting point the Company ensures a split between fixed remuneration and variable remuneration.

#### Other benefits in kind:

Other benefits in kind includes rent free or subsidised rate of residential accommodation, car, gas, electricity, mobile bill, telephone bill, club membership fees, reimbursement of personal expense, etc.

#### Severance payments:

Severance payments are payable in accordance with relevant local legislation and/or as mutually agreed between the Company and Director/KMP/Employee. Subject to individual agreements, KMP/other Employees are entitled to a maximum of 1 months' salary on dismissal. However, some agreements with senior management may provide for maximum 3 months' salary.

#### Remuneration of the Executive Director including Managing Director & Whole-time Director:

The remuneration of the Executive Director is intended to ensure the Company's continued ability to attract and retain the most experienced Executive Director and to provide solid basis for succession planning.

The NRC shall submit its recommendations for adjustments in remuneration of the Executive Director for the approval of the Board. The remuneration of the Executive Director may consist of fixed remuneration and supplements, incentive, etc. Subject to individual agreement, Executive Director shall also be entitled to a company car, phone and other fixed benefits. The maximum severance pay is 3 months' salary inclusive of the value of variable remuneration and other benefits.

#### **Remuneration of the Non- Executive Directors:**

Members of the Board other than Executive Director(s) shall receive a fee for attending each meeting of the Board or Committee thereof or for any purpose whatsoever as may be decided by the Board. The Independent Director shall receive a fixed fee for attending each separate meeting as may be required to be held in compliance with the provisions of the Act, the Listing Regulations or other applicable laws.

Based on the recommendation of the NRC, the Board may approve the fee(s)/remuneration(s) payable to the Non-Executive Directors or changes thereof.

The remuneration of the Non-Executive Directors shall be specified in the annual report.

#### **Remuneration of the KMP:**

The Chairman, Managing Director and Whole-time Director shall jointly or severally, decide and approve the terms and conditions of the employment including payment of remuneration of the KMP other than Executive/Non-Executive Directors appointed as KMP, if any. The remuneration of the KMP may consist of fixed remuneration or variable remuneration or partly fixed and partly variable remuneration and/or, incentive, etc.

#### **Remuneration of other Employees:**

The Company has a “Grievance Redressal Policy” applicable to all permanent employees. It seeks to promote practices and procedures that ensure creation and sustenance of healthy relationships and expeditious settlement of employee grievance, thereby improving productivity and overall efficiency of the organisation.

As per the policy there are three stages to addressing an employee grievance:

Stage I: The grievance must be submitted with requisite documents to the aggrieved employee's immediate supervisor (“relevant authority” at this stage). On receipt, the supervisor will discuss the matter with the aggrieved employee and redress the grievance if it is within their power to do so. A formal response has to be communicated to the employee within ten days of receipt of the grievance with a copy to the HR department.

Stage II: If at Stage I the aggrieved employee is not satisfied with the outcome, they can approach the Department/ Functional/Business Unit Head (“relevant authority” at this stage) the grievance to the next stage have to be indicated clearly in the prescribed form. The relevant authority will also meet the aggrieved employee to discuss the grievance in detail. Within ten days of receipt of the grievance the relevant authority has to communicate their response to the employee with a copy to the HR department.

Stage III: If dissatisfied with the outcome at Stage II, the employee can approach the Grievance Redressal Committee within seven working days of receipt of formal communication of the outcome, clearly stating the reasons. This Committee will further discuss the matter in detail with the employee. The Committee has to respond within thirty working days of receipt of the grievance with a copy to the HR department.

The decision of the Committee in Stage III is final, and no further appeal can be entertained against their decision. However, unresolved grievances recorded in the monthly reports have to be referred to the CEO for a final decision.

# Independent Auditor's Report

To the Members of  
**Maithan Alloys Limited**

## REPORT ON THE AUDIT OF STANDALONE FINANCIAL STATEMENTS

### Opinion

We have audited the accompanying Standalone Financial Statements of **Maithan Alloys Limited** ("the Company"), which comprise the Balance sheet as at March 31, 2025, the Statement of Profit and Loss, (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and notes to the Standalone Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the state of affairs (financial position) of the Company as at March 31, 2025, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context:

Descriptions of the Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Revenue Recognition</b> (Refer Note No. 3 and 35 of the Standalone Financial Statements):</p> <p>Revenue from the sale of products (hereinafter referred to as “Revenue”) is recognised when the Company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such revenue recognition in case of sale of products is when the control over the same is transferred to the customer. The timing of revenue recognition is relevant to the reported performance of the Company. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred.</p> <p>We determine this to be key audit matter to our audit report due to quantum of amount involved.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>Assessed the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and tested thereof.</li> <li>Evaluated the design, implementation and operating effectiveness of Company's controls in respect of revenue recognition.</li> <li>Tested the effectiveness of such controls over revenue cut off at year-end.</li> <li>On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents.</li> <li>Performed analytical review procedures on revenue recognised during the year to identify any unusual and/or material variances</li> <li>Tested selected samples of revenue transactions recorded before and after the financial year end date to determine whether the revenue has been recognised in the appropriate financial period.</li> <li>Evaluated the appropriateness and adequacy of disclosures in the financial statements in respect of revenue recognition with the applicable standards.</li> </ul> <p>Based on above procedures, we concluded that the revenue has been recognised and measured as per IND AS 115.</p>
<p><b>Existence and Valuation of Inventory</b> (Refer Note No. 3 and 14 of the Standalone Financial Statements):</p> <p>The carrying value of inventory as at 31 March 2025 is Rs. 588.04 crores. The inventory is valued at the lower of cost and net realizable value. We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in comparison of net realizable value with cost to arrive at valuation of inventory.</p> <p>We determine this to be key audit matter to our audit report due</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory.</li> <li>Assessing the appropriateness of Company's accounting policy for valuation of inventory and compliance of the policy with the requirements of the prevailing Indian accounting standards.</li> <li>We considered various factors including the actual selling price prevailing around and subsequent to the year-end.</li> <li>Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value.</li> <li>Further, for the purpose of determination of physical quantity of the inventory as at the year end, physical verification was done by the management of the Company along with independent third party and we have relied upon their report.</li> <li>The existence and cost of the land bank have been verified with reference to the respective underlying documents.</li> </ul> <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.</p>

Descriptions of the Key Audit Matter	How our audit addressed the Key Audit Matter
<p><b>Existence and Valuation of Investment</b> (Refer Note No. 3,9 and 15 of the Standalone Financial Statement):</p> <p>The company holds Current and Non-Current Investments amounting to Rs 1,977.82 crores and Rs 1076.01 crores respectively which represents 64.75% of total assets as at March 31, 2025. The Investments comprise of mutual funds, quoted equity shares, unquoted equity shares, alternate investment funds and investment through portfolio management service (PMS). The investments being financial instruments needs to be appropriately designated at fair value through profit or loss, fair value through other comprehensive income (not to be reclassified) or at amortized cost. Further, these financial instruments need to be valued and classified as Level 1, 2 or 3 financial instruments as per the fair value hierarchy.</p> <p>We determine this to be key audit matter to our audit report due to quantum of amount involved.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>• We understood, assessed and tested the design and operating effectiveness of key controls surrounding fair valuation of investments.</li> <li>• We have verified the Broker's Demat holding statements, statement of account, PMS Portfolio holding statements as at March 31, 2025 for Equity Shares, Mutual Funds, Alternative Investment Funds, and PMS investments to confirm the existence and ownership of the Company's investment portfolio. The same has also been corroborated with the NSDL CAS statement.</li> <li>• We have assessed the independence and competence of the valuation expert appointed by the management.</li> <li>• We have verified on sample basis the fair valuation of all Investments held as at March 31, 2025 to the Net Assets Value provided by the respective Mutual funds and Alternate Investment Funds, market value of debenture or bonds and quoted equity shares from source data, valuation of unquoted equity shares from report issued by valuation expert engaged by management, Market Value of investment made in PMS through its holding statement. And tested the arithmetical accuracy of the calculation of valuation of investments.</li> <li>• Assessed adequate disclosures in financial statements in respect of investment.</li> </ul> <p>Based on the audit procedures performed, we are satisfied with valuation and existence of current and non-current investments.</p>

#### **Information Other than the Standalone Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of Management and Board of Directors for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other

comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to standalone financial statements and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative

factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, based on our audit, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rule, 2014.
- © The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under section 143(3)(b) of

the Act and paragraph 2(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

(g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirement of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Schedule V to the Act except the payment of INR 1.74 crores paid to directors in excess of limits approved by the shareholders. Refer note No. 20 of the Standalone Financial Statements.

(i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

I. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 55 to the Standalone Financial Statements.

II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as on March 31, 2025.

III. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

IV. (a) The management has represented to us that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The management has represented to us that, to the best of its knowledge and belief, no funds have been received by

the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries and

(c) Based on our audit procedures that are considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under paragraph 2(h) (iv)(a) &(b) above, contain any material misstatement.

V. (a) The Interim dividend declared and paid by the company until the date of this audit report is in accordance with Section 123 of the Act. The final dividend paid by the company during the year, in respect of the same declared for the previous year, is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.

(b) The Board of Directors of the Company has proposed dividend for the year, which is subject to the approval of the Members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

VI. Based on our examination, which included test checks, the Company has used accounting software including payroll accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all the relevant transactions recorded in the accounting software, except in respect of the accounting software, the audit trail feature was not enabled at the database level up to May 13, 2024 and in respect of the payroll accounting software, the audit trail feature was not enabled at the database level throughout the year.

Further, during our audit, we did not come across any instance of audit trail feature being tampered with in respect of accounting software including payroll accounting software.

Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

## Annexure “A” to the Independent Auditor's Report

Referred to in paragraph 1 under the heading 'Report on Other Legal and Regulatory Requirements' of our Independent Auditors' Report of even date to the members of **Maithan Alloys Limited** on the Standalone Financial Statements as of and for the year ended March 31 2025., we report that:

- i. In respect of matters specified in clause (i) of the order:
  - a. i) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.
  - ii) The Company has maintained proper records showing full particulars of intangible assets.
- b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of verification of property, plant and equipment to cover all the items in a phased

manner, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification

- c. According to the information and explanations given by the management, and on the basis of our examination of the records of the Company, the title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the Standalone Financial Statements are held in the name of the Company, except for the following:

Description of property	Gross Carrying Value (Rs. In Cr)	Held in the name of	Whether promoter, director or their relative or employee	Period held since	Reason for not being held in the name of the company
Land at Visakhapatnam	1.38	Anjaney Alloys Limited	No	Since 2016 till date	The title of asset transferred pursuant to the scheme of amalgamation in the year 2016 and the company is in process of transferring the title in the name of the company.

- d. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year.
- e. Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its Standalone Financial Statements does not arise.
- ii. In respect of matters specified in clause (ii) of the Order:
  - a. According to the information and explanations given to us, the inventory (excluding inventory in transit) has been physically

verified by the management along with independent party during the year and in our opinion, the frequency of verification is reasonable and procedure and coverage as followed by the management were appropriate. In respect to inventory for goods in transit, subsequent evidence of receipts has been linked with inventory records. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

- b. During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are not in agreement with the books of account, however such differences between the amounts disclosed to the banks and those as per the books of accounts as given in the table below have been reconciled. (Also refer Note 28 to the Standalone Financial Statements)

Name of the Bank	Aggregate working capital limits sanctioned	Quarter	Amount disclosed as per quarterly return/statements	Amount as per books of account	Diff	Reason

iii. In respect of matters specified in clause (iii) of the Order:

- a. The Company has made investment during the year in two subsidiary companies, mutual funds, preference shares of a subsidiary company equity shares, alternate Investment Funds and investment through portfolio management service (PMS). According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted secured/unsecured loans / advances in the nature of loans to any Company/Firm/Limited

Liability Partnership/other party during the year other than unsecured loans given to five subsidiary Companies and loan granted to two other body corporates. The Company did not stand as a guarantee, or provided security to any Company/Firm/Limited Liability Partnership/other party during the year. The aggregate amount of loan granted during the year and balance outstanding as at the balance sheet date with respect to such loans granted to aforesaid companies and body corporates are as per the table given below:

Particulars	Guarantees	Security	Loans	Advances in nature of loan
<b>Aggregate amount granted/provided during the year:</b>

Others - Loan to Body Corporate	Nil	Nil	6.75	Nil
<b>Balance outstanding as at Balance Sheet date in respect of above cases:</b>				
Subsidiaries	Nil	Nil	427.76	Nil

- b. According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the above investments made and the terms and conditions of the grant of loans during the year are, prima facie, not prejudicial to the Company's interest.
- c. In our opinion and according to the information and explanation given to us, certain loans and advances in the nature of loans granted by the company are repayable on demand. During the year the Company has not demanded repayment of such loans or advances. Accordingly, having regard to the fact that the repayment of principal or payment of interest has not been demanded by the Company, in our opinion the repayments of principal amounts and receipts of interest are regular. In addition to the above, the Company has also granted long-term loan to two subsidiaries, repayable after a period of three years, wherein the principal and interest are

both payable at the end of the term and hence not fallen due. In our opinion and according to the information and explanation given to us, in respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation.

- d. There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days in respect of loan given.
- e. According to the information and explanations given to us and on the basis of our examination of the records of the Company and, there is no loan given falling due during the year, which has been renewed or extended or fresh loans given to settle the

overdue of existing loan given to the same party.

the Company has granted Loans which are repayable on demand, details of which are given below:

- f. According to the information and explanations given to us and on the basis of our examination of the records of the Company,

- f. The Company has not raised loans during the year on the pledge of securities held in its subsidiaries.
- x. In respect of matters specified in clause (x) of the Order:
- a. The company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, clause 3(x)(a) of the Order is not applicable to the company.
- b. The Company has not made any preferential allotment or private placement of shares or fully or partly or optionally convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable to the company.
- xi. In respect of matters specified in clause (xi) of the Order:
- a. According to the information and explanations given to us and as represented by the Management and based on our examination of the books and records of the Company and in accordance with generally accepted auditing practices in India, no material case of frauds by the Company or on the Company has been noticed or reported during the course of audit nor have we been informed any such case by the management.
- b. According to the information and explanations given to us, during the year, no report under subsection (12) of Section 143 of the Companies Act, 2013 has been filed by the Auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c. As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

- xii. In our opinion and according to the information and explanation provided to us, the company is not a Nidhi Company, therefore, the reporting under Clause 3 (xii)(a), 3(xii)(b) and 3(xii)(c) of the Order is not applicable.
- xiii. In our opinion and according to the information and explanations given by the management, the Company has entered into transactions with related parties in compliance with the provisions of section 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by the applicable Indian accounting standards.
- xiv. In respect of matters specified in clause (xiv) of the Order:
- a. In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.
- b. The internal audit reports of the company issued till date of the audit report, for the period under audit have been considered by us.
- xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors. Accordingly, clause 3(xv) of the Order is not applicable.
- xvi. In respect of matters specified in clause (xvi) of the Order:
- a. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.
- b. The Company has not conducted any Non-Banking Financial or Housing Finance activities during the year. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.
- c. The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.
- d. As represented by the Management, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable. We have not, however, separately evaluated whether the information provided by the management is accurate and complete.
- xvii. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not incurred any cash losses during the current year 2024-25 and immediately preceding financial year 2023-24.
- xviii. There has been no resignation of the statutory auditors during the year and accordingly clause 3(xviii) is not applicable to the company.
- xix. According to the information and explanations given to us and on the basis of the financial ratios (refer Note 54 of the Standalone Financial Statements), ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- xx. In respect of matters specified in clause (xx) of the Order:
- a. In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in Note 44(i) of the Standalone Financial Statements. Accordingly, clause 3(xx)(a) of the Order is not applicable for the year.
- b. There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act. This matter has been disclosed in note 44(l) of the Standalone Financial Statements. Accordingly, clause 3(xx)(b) of the Order is not applicable for the year.
- xxi. The reporting under Clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

# Annexure “B” to the Independent Auditor's Report

(Referred to in paragraph 2 (g) under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditor's Report to the Members of even date to the Members of Maithan Alloys Limited on the Standalone Financial Statements as of and for the year ended 31st March 2025)

## Report on the Internal Financial Controls with reference to Standalone Financial Statements under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls with reference to financial statements of **Maithan Alloys Limited** ("the Company") as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

2. The Company's management and Board of directors are responsible for establishing and maintaining internal financial controls based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to these Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statement. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these Standalone Financial Statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to these Standalone Financial Statements and their operating effectiveness. Our audit of

internal financial controls with reference to the Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to these Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

### Meaning of Internal Financial Controls with reference to Standalone Financial Statements

6. A company's internal financial controls with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the

internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

8. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material

respects, an adequate internal financial controls system with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by Institute of Chartered Accountants of India.

### 1. Corporate Information

Maithan Alloys Limited ("the Company") is a public company domiciled in India limited by shares, and it's incorporated on 19 September 1985 under the provisions of the Companies Act applicable in India. Its shares are listed on Calcutta Stock Exchange (CSE) and the National Stock Exchange (NSE) and are traded on Bombay Stock Exchange (BSE) under Permitted category. The Company is primarily engaged in the business of manufacturing and exporting of all three bulk Ferro alloys- Ferro Manganese, Silico Manganese and Ferro Silicon. It is also engaged in the generation and supply of Wind Power and has a Captive Power Plant. During the current financial year, Company has entered into new business segment of real estate constructions/ real estate development.

### 2. Statement of compliance and basis of preparation of Financial Statements

#### a. Statement of Compliance

These ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ("the Act") read with Rule 4A of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards), as amended, and other relevant provisions of the Companies Act, 2013 ("the Act"). The accounting policies are applied consistently to all the periods presented in the financial statements.

#### b. Basis of Preparation

The financial statements have been prepared on the going concern basis and at historical cost and on accrual method of accounting, except for certain financial assets and liabilities that are measured at fair value/ amortised cost. (Refer note 3(h) below).

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition, or the amount of proceeds received in exchange for the obligation, or at the amount of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

#### c. Functional Currency and Presentation Currency

The financial statements are prepared in Indian Rupees (₹) which is the functional currency of the company and the currency of the primary economic environment in which the company operates and all values are rounded to the nearest crores, upto 2 decimal places except as otherwise indicated.

#### d. Current and Non-Current Classification

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the schedule III to the Companies Act, 2013 and Ind AS 1 - 'Presentation of Financial Statements'.

All assets and liabilities are classified as current when it is expected to be realized or settled within the Company's normal operating cycle, i.e. twelve months. All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only.

#### e. Application of New Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended 31 March 2025, MCA has notified Ind AS 117 - Insurance Contracts and amendments to Ind AS 116 - Leases, relating to sale and lease back transactions, applicable from 1 April 2024. The Company has assessed that there is no significant impact on its financial statements.

On 9 May 2025, MCA notifies the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after 1 April 2025. The Company is currently assessing the probable impact of these amendments on its financial statements.

### 3. Summary of Material Accounting Policies

#### a. Property, Plant and Equipments

Property, plant and equipment are stated at their cost of acquisition, installation or construction less accumulated depreciation and impairment losses, if any, except freehold land which is stated at cost less impairment losses if any.

The cost of property, plant and equipment comprises its purchase price, and any cost directly attributable to bringing the asset to working condition and location for its intended use. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Stores and spare parts are capitalised when they meet the definition of property, plant and equipment. The corresponding old spares are decapitalised on such date with consequent impact in the statement of profit & loss.

Subsequent expenditures on major maintenance or repairs includes the cost of the replacement of parts of assets and overhaul costs are included in the asset's carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

If significant parts of an item of property, plant and equipment have different useful life, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, expenditure towards major inspections and overhauls are identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of PPE, is determined as the difference between the sales proceeds and the carrying amount of the asset, and is recognised in Statement of Profit and Loss. Major inspection and overhaul expenditure is capitalized, if the recognition criteria are met.

Capital work in progress comprises expenditure for acquisition and construction of tangible assets that are not yet ready for their intended use. Costs, net of income, associated with the commissioning of the asset are capitalized until the period of commissioning has been completed and the asset is ready for its intended use. At the point when the asset is capable of operating in the manner intended by the management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Such items are classified to the appropriate category of property, plant and equipment when completed and ready for their intended use. Advances given towards acquisition/construction of property, plant and equipment outstanding at each balance sheet date are disclosed as Capital Advances under "Other non-current assets".

### b. Depreciation

Depreciation on property, plant and equipment is provided on straight line method (SLM), except on Building and Plant & Machineries of Ferro Alloys Unit at Byrnihat and Kalyaneshwari on which depreciation has been provided on written down value (WDV) method.

Depreciation commences when the assets are ready for their intended use. Depreciated assets and accumulated depreciation amounts are retained fully until they are removed/retired from active use.

Depreciation is provided to allocate the costs of property, plant and equipment, net of their residual values, over their useful life as specified in Schedule II of the Companies Act, 2013, other than in case of factory building and plant & machinery in Visakhapatnam Unit where useful life has been considered by the management to be of 20 years.

The assets residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed during each financial year and adjusted prospectively, if appropriate. In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

### c. Leases

The Company has applied Ind AS 116 "Leases" with effect from 1st April 2019. The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration, to assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether

- the contract involves the use of identified asset;
- the Company has substantially all of the economic benefits from the use of the asset through the period of lease; and
- the Company has the right to direct the use of the asset.

#### *As a Lessee*

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are initially measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the initial amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are subsequently depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine

such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### *Short-term leases and leases of low-value assets*

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or lower and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### **d. Intangible Assets and Amortization**

Intangible assets acquired separately are, on initial recognition, measured at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for intangible asset with a finite useful life are reviewed at the end each reporting period.

Intangible assets with infinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash generating unit level. The assessment of infinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

A Summary of the policies applied to the Company's intangible assets is, as follows:

Intangible assets	Amortization Method Used
Mining rights	Over the period of respective mining agreement
Software	Amortized on a straight-line basis over the useful life.

The amortisation period and the amortisation method are reviewed at each financial year end, if the expected useful life of the asset is different from previous estimates; the change is accounted for prospectively as a change in accounting estimate.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

#### **e. Impairment of Non-Financial Assets**

The Company assesses at the end of each reporting period the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, then an impairment review is undertaken and an impairment loss, if any, is recognized in the statement of profit and loss wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs of disposal and the asset's value in use. In case, where it is not possible to estimate the recoverable amount of an individual non-financial asset, the Company estimates the recoverable amount for the smallest cash generating unit to which the non-financial asset belongs.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effect of factors that may be specific to the entity and not applicable to entities in general. Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal.

Impairment charges and reversals are assessed at the level of cash-generating unit (CGU). A cash-generating unit (CGU) is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets.

A cash generating unit is treated as impaired when the carrying amount of the assets or cash generating unit exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the period in which asset or cash generating unit is identified as impaired.

Impairment loss recognised in prior accounting period(s) is reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation, if there was no impairment. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

### f. Government Grants and Subsidies

Grants and subsidies from the Government are recognized when there is reasonable assurance that the grant/subsidy will be received and the Company will comply with the conditions attached to them. When the grant relates to an expense item, it is recognised in the Statement of Profit and Loss by way of a deduction to the related expense on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate. When the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related assets and presented within other income.

In the unlikely event that a grant previously recognized is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss. When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and is being recognised in the Statement of Profit and Loss. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

### g. Foreign Currency Translation

Foreign currency transactions are translated into the functional currency at the exchange rates that approximates the rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies outstanding at the end of the reporting period are translated into the functional currency at the exchange rates prevailing on the reporting date. Non-monetary items are translated using the exchange rates prevailing on the transaction date, subsequently measured at historical cost and not retranslated at period end.

All exchange differences on monetary items are recognized in the Statement of Profit and Loss.

### h. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through the statement of profit and loss) are added or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly

attributable to the acquisition of financial assets or financial liabilities at fair value through the statement of profit and loss are recognized immediately in the statement of profit and loss.

#### (i) Financial Assets

The Company's financial assets comprise:

- a. Current financial assets mainly consist of trade receivables, investments in liquid equity shares, mutual funds, non-convertible debenture, alternate investment fund, portfolio management service, cash and bank balances, fixed deposits with banks and financial institutions and other current receivables.
- b. Non-current financial assets mainly consist of financial investments in equity, bond, alternate investment fund, fixed deposits, non-current receivables from related party and employees and non-current deposits.

#### - Recognition and Initial Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are added to fair value. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

#### - Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at Amortized Cost;
- Financial assets at Fair Value Through Other Comprehensive Income (FVOCI);
- Financial assets at Fair Value Through Profit or Loss (FVTPL); and

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

> *Financial assets at Amortized Cost:* A 'financial assets' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets comprises of current financial assets such as trade receivables, cash and bank balances, fixed deposits with bank and financial institutions, other current receivables and non-current financial assets such as financial investments - fixed deposits. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment, if any are recognised in the statement of profit and loss.

- > **Financial assets at FVOCI:** A 'financial assets' is measured at the FVOCI if both of the following conditions are met:
  - The objective of the business model is achieved by collecting contractual cash flows and selling the financial assets; and
  - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in Other Comprehensive Income. However, the interest income, impairment losses & reversals, and foreign exchange gains and losses are recognised in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in other comprehensive income is reclassified from the equity to statement of profit and loss. Interest earned whilst holding fair value through other comprehensive income debt instrument is reported as interest income using the EIR method.

For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

- > **Financial assets at FVTPL:** FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL, if such designation reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with any gains and losses arising on re-measurement are recognized in the Statement of Profit and Loss.

- > **Equity Instruments:** Any equity investments instruments in the scope of Ind AS 109 "Financial Instruments" are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified at cost.

For equity instruments which are classified as FVTPL, all subsequent fair value changes are recognised in the statement of profit and loss.

### - **Financial Assets -derecognition**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred and the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On de-recognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in other equity is recognised in Standalone Statement of Profit and Loss.

### - **Impairment of Financial Assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period.

In case of financial assets, the Company follows the simplified approach permitted by Ind AS 109 - Financial Instruments - for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk of trade receivable. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

## (ii) **Financial Liabilities**

### - **Recognition And Initial Measurement**

The Company recognises a financial liability in its balance sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and borrowings including bank overdrafts and derivative financial instruments.

### - **Subsequent Measurement**

Financial liabilities are measured subsequently at amortized cost or FVTPL.

### **Financial liabilities at FVTPL**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. These gains/ losses are not subsequently transferred to the statement of profit and loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Further, the provisionally priced trade payables are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in costs.

### *Financial liabilities at amortised cost (Borrowings and Trade and Other payables)*

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR (Effective Rate Interest) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR (Effective Rate Interest) amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in profit or loss.

#### - *Financial Liabilities- derecognition*

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

#### - *Equity Instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

#### - *Offsetting Financial Instruments*

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

### **(iii) Derivative Financial Instruments**

The Company enters into forward contracts to mitigate the risk of changes in exchange rates. The Company does not hold derivative financial instruments for speculative purposes. Such derivative financial instruments are initially recognized at fair

value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value with changes in fair value recognized in the Statement of Profit and Loss in the period when they arise. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

#### i. Inventories

Inventories are valued after providing for obsolescence, as follows:

#### 1. Raw materials, stores and spare parts, fuel and packing material:

These are considered to be realisable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis and includes purchase price, other costs incurred in bringing the inventories to their present location and condition, and taxes for which credit is not available. However, materials and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

#### 2. Work-in-progress, finished goods and stock in trade:

These are valued at the lower of cost and net realisable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Cost of finished goods and Work-in-progress includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, but excluding borrowing costs. Cost of Stock-in-trade is determined on weighted average basis and includes cost of purchase and other cost incurred in bringing the inventories in the present location and condition.

Obsolete, defective, slow moving and unserviceable inventories, if any, are identified at the time of physical verification and where necessary, they are duly provided for.

#### 3. Inventories are valued as under: Land Bank- It consists of asset purchased by the Company that it intends to develop later on into residential / commercial project but on which no construction has commenced. Land is initially recognized at cost which is generally the cost or net realizable value whichever is less. However, it is discounted to present value when payment terms are deferred for a period of more than one year.

#### **j. Revenue Recognition**

The Company is primarily engaged in the manufacturing of Ferro Alloys and generate revenue from the sale of the product.

#### **(i) Revenue from Operation**

Revenue from sale of product is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the product.

At contract inception, the Company assess the goods promised in a contract with a customer and identifies as a performance obligation of each promise to transfer to the customer. Revenue

from contracts with customers is recognized when control of goods is transferred to customers and the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration and excluding taxes or duties collected on behalf of the Government.

### For Certain Contracts

Certain of the Company's sales contracts provide for provisional pricing based on the price on the Commodity Research Unit (CRU), as specified in the contract. Revenue in respect of such contracts is recognised when control passes to the customer and is measured at the amount the entity expects to be entitled - being the estimate of the price expected to be received at the end of the measurement period. Post transfer of control, of goods, provisional pricing features are accounted in accordance with Ind AS 109 'Financial Instruments' rather than Ind AS 115 'Revenue from contracts with customers' and therefore the Ind AS 115 rules on variable consideration do not apply. These 'provisional pricing' adjustments i.e. the consideration adjusted post transfer of control are included in total revenue from operations. Final settlement of the price is based on the applicable price for a specified future period. The Company's provisionally priced sales are marked to market using the relevant forward prices for the relevant period specified in the contract and is adjusted in revenue.

#### a. Sale of Goods

Sale of goods is recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions. As the period between the date on which the Company transfers the promised goods to the customer and the date on which the customer pays for these goods is generally one year or less, no financing components are taken into account.

#### b. Revenue Recognition of Real Estate segment

In real estate development contracts, individual items are sold separately in market and add value to the customer on an individual basis. Therefore, these services are considered as separate performance obligations.

Revenue for 'sale of property' is recognized when control over the property has been transferred to the customer. Revenue is recognized at a point in time when the possession is handed over to the customer including deemed possession.

Where, the Company enters into a contract for sale of undeveloped/developed land revenue for which is recognised when possession is handed over and the control is transferred to the customer

#### c. Other Operating Revenue

Export incentive and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received. Insurance & other claims, where quantum of accruals cannot be ascertained with reasonable certainty are recognised as income only when revenue is virtually certain which generally coincides with receipt/acceptance.

#### (ii) Other Income

a) Interest income is recognized using the effective interest rate method. For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.

b) Dividend Income is recognised only when the right to receive payment is established.

#### k. Employee Benefits

##### a) Short-Term Benefits

Short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized as an expense at the undiscounted amount in the statement of profit and loss of the period in which the related service is rendered.

Accumulated compensated absences, which are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service, are treated as short term employee benefits. The Company measure the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlements that has accumulated at the reporting date.

##### b) Defined Contribution Plans

Employee benefits in the form of contribution Provident Fund managed by Government Authorities and Employee State Insurance Corporation are considered as defined contribution plans and the same are charged to the statement of profit and loss for the period in which the employee renders the related services.

##### c) Defined Benefit Plans

The Company's gratuity fund scheme and post-employment benefits scheme are considered as defined benefit plans. The Company's liability is determined on the basis of actuarial valuation using the projected unit credit method as at the balance sheet date.

Past service costs are recognized in the statement of profit and loss on the earlier of:

- The date of plan amendment or curtailment, and
- The date that the company recognizes related restructuring costs

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. The Company recognizes the following changes in the statement of profit and loss:

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Re-measurements comprising actuarial gains and losses, the effect of asset ceiling (if any), and the return on the plan assets (excluding net interest), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods.

#### d) *Compensated absences*

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation.

Actuarial gains and losses relating to long-term and short-term employee benefits are recognised in the statement of Profit and Loss in the period in which they arise.

### I. **Taxation**

Income tax expense represents the sum of current tax and deferred tax and includes any adjustments related to past periods in current and/or deferred tax adjustments that may become necessary due to certain developments or reviews during the relevant period. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in Equity or Other Comprehensive Income.

#### a) *Current Tax*

Current income tax is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and the tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to income tax is included in other income.

Current tax relating to the items recognized outside the statement of profit and loss is recognized in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax

regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

#### b) *Deferred Tax*

Deferred tax is recognized on all temporary differences between the tax bases of assets and liabilities and their carrying amounts in the Company's financial statements except when the deferred tax arises from the initial recognition of goodwill or initial recognition of an asset or liability in a transaction that is not a business combination and affects neither the accounting nor taxable profits or loss at the time of transaction. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax assets are recognized for deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent it is probable that future taxable profits will be available against which the deductible temporary difference, the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when the same relate to items that are recognised in Other Comprehensive Income or directly in Equity, in which case, the current and deferred tax relating to such items are also recognised in Other Comprehensive Income or directly in Equity respectively.

### m. **Borrowing Costs**

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised, if any. All other borrowing costs are expensed in the period in which they occur.

### n. **Cash and Cash Equivalents**

Cash and cash equivalents consist of cash on hand, cash at banks, fixed deposits and short-term highly liquid investments with an original maturity of three months or less.

For the purpose of presentation in the statement of cash flows, cash and cash equivalent includes cash on hand, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash, cash at bank and bank overdraft which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the Balance Sheet.

### **o. Cash Flow Statement**

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

### **p. Provisions, Contingent Liabilities and Contingent Assets**

#### *Provisions*

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of a past event, and it is probable that an outflow of resources will be required to settle such an obligation and the amount can be estimated reliably. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

#### *Contingent Liabilities*

Contingent liabilities are possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that arises from past events is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. Contingent Liabilities are not recognized but disclosed in the financial statements when the possibility of an outflow of resources embodying economic benefits is more.

#### *Contingent Assets*

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognised.

### **q. Earnings per share**

Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during

the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. Partly paid-up shares are included as fully paid equivalents according to the fraction paid-up.

Diluted earnings per share are computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

### **r. Dividends**

Dividends paid are recognised in the period in which the dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders and is recognised directly in other equity.

### **s. Segment Reporting**

Operating segment is reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM). The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. Inter-segment revenues have been accounted for based on prices normally negotiated between the segments with reference to the costs, market prices and business risks, within an overall optimization objective for the Company. Revenue and expenses are identified with segments on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the Company as a whole and are not allocable to segments on a reasonable basis, will be included under "Unallocated/Others".

### **t. Exceptional items**

Exceptional items are those items that management considers, by virtue of their size or incidence should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

### **u. Key Accounting Estimates and Judgments**

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, and disclosures of contingent assets and liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed in the paragraphs that follow.

(i) Useful Economic Lives and Impairment of Other Assets

The estimated useful life of property, plant and equipment (PPE) and intangible asset is based on a number of factors including the effects of obsolescence, usage of the asset and other economic factors (such as known technological advances).

The Company reviews the useful life of PPE and intangibles at the end of each reporting date and any changes could affect the depreciation rates prospectively.

The Company also reviews its property, plant and equipment for possible impairment if there are events or changes in circumstances that indicate that the carrying value of the assets may not be recoverable. In assessing the property, plant and equipment for impairment, factors leading to significant reduction in profits, such as the Company's business plans and changes in regulatory environment are taken into consideration.

(ii) Contingencies and Commitments

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability.

(iii) Actuarial Valuation

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognized in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depend on assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.

(iv) Fair Value Measurements and Valuation Processes

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in the notes to the financial statements.

(v) Recognition of Deferred Tax Assets For Carried Forward Tax Losses

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

(vi) Assessment of Impairment of investments in subsidiaries

The Company reviews its carrying value of investments in subsidiaries, associates and joint ventures annually, or more frequently when there is indication for impairment.

If the recoverable amount is less than its carrying amount, the impairment loss is accounted for. Determining whether the investment in subsidiaries, associates and joint ventures is impaired requires an estimate in the value in use of investments. The Management carries out impairment assessment for each investment by comparing the carrying value of each investment with the net worth of each company based on audited financials, comparable market price and comparing the performance of the investee companies with projections used for valuations, in particular those relating to the cash flows, sales growth rate, pre-tax discount rate and growth rates used and approved business plans.

### 47. Employee Benefit Obligations

#### (i) Defined Contribution Plans

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident and Pension Fund and Employee State Insurance ('ESI') which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are recognised in the Standalone Statement of Profit and Loss as they accrue.

Particulars	Year Ended 31 March 2025	Year Ended 31 March 2024
The followings recognized in the Statement of Profit and Loss		
Contribution to Employee's State Insurance Corporation	0.17	0.20
Contribution to Employees Provident Fund	1.00	1.03

#### (ii) Defined Benefit Plans

Particulars	As at 31 March 2025		As at 31 March 2024	
	Current	Non-Current	Current	Non-Current
Leave Encashment	0.07	0.51	0.03	0.51
Gratuity	0.50	2.81	0.21	3.03

The defined benefit plans expose the Group to a number of actuarial risks as below:

- Interest Risk** : A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the value of plan's debt investments.
- Salary risk** : The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.
- Longevity risk**: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- Inflation risk**: Some of the Group's Pension obligations are linked to inflation, and higher inflation will lead to higher liabilities although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation.

#### (iii) Leave Encashment

The liabilities for leave encashment are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit Method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Other Comprehensive Income.

## 48. Financial Risk Management

The Company has a system-based approach to risk management, anchored to policies & procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulations. It also seeks to drive accountability in this regard.

The Company's financial liabilities includes Borrowings, Trade Payables and Other Financial Liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include Investment, Trade Receivables, Cash and Cash Equivalents and Other Financial Assets that are derived directly from its operations.

It is the Company's policy that derivatives are used exclusively for hedging purposes and not for trading or speculative purposes.

Risk	Exposure arising from	Measurement	Management
Market Risk – Commodity Price Risk	Volatility in raw material prices significantly impacts the input costs	Commodity price tracking	Mitigated this risk by well integrated business model
Market Risk – Price Risk	Investments in equity securities	Sensitivity analysis	Continuous monitoring of performance of investments
Market Risk – Interest Rate	Borrowings at floating interest rates	Sensitivity analysis	Exposure to floating interest rate debt is only to the extent of Working Capital requirement .
Market Risk – Foreign Exchange	Future commercial transactions and recognised financial assets & liabilities not denominated in Indian rupee (INR)	Cash flow forecasting Sensitivity analysis	Projecting cash flows and considering the forecast of fluctuation in exchange rates
Credit Risk	Investment, Trade receivables and other financial assets measured at amortised cost	Ageing analysis	Diversification of customer base
Liquidity Risk	Financial liabilities that are settled by delivering cash or another financial asset.	Cash flow forecasts	Projecting cash flows and considering the level of liquid assets necessary to meet the liabilities

The Board of Directors reviewed policies for managing each of these risks which are summarised below:-

### (a) Market Risk

#### (i) Commodity Price Risk

Alloy industry being cyclical in nature, realisations gets adversely affected during downturn. Higher input prices or higher production than the demand ultimately affects the profitability. The Company has mitigated this risk by well integrated business model.

#### (ii) Price Risk

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance sheet either at fair value through other comprehensive income or at fair value through profit and loss. Having regard to the nature of securities, intrinsic worth, intent and long term nature of securities held by the Company, fluctuation in their prices are considered acceptable and do not warrant any management.

\* Holding all other variables constant

### (iii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in the market interest rates relates primarily to the Company's borrowings obligations with floating interest rates. The borrowings of the Company are principally denominated in Indian Rupees linked to MCLR with floating rates of interest. The Company invests surplus funds in Short-Term Deposits and Mutual Funds, some of which generate a tax-free return, to achieve the Company's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

The exposure of the Company's Financial Liabilities to interest rate risk is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
<b>From Bank</b>		
- Cash Credit from Bank	0.39	13.90
- Working Capital Demand Loan	15.96	-
<b>From Others</b>		
- Flexi Loan	280.00	-
Buyers Credit	265.51	-
	<b>561.86</b>	<b>13.90</b>

### Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates as below:

Particulars	Impact on Profit Before Tax	
	31 March 2025	31 March 2024
Interest expense rates – increase by 50 basis points (P.Y. 2024: 50 bps)*	(2.81)	(0.07)
Interest expense rates – decrease by 50 basis points (P.Y. 2024: 50 bps)*	2.81	0.07

\* Holding all other variables constant

### (iv) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated Borrowings, Creditors and Debtors. This foreign currency risk is covered by using foreign exchange forward contracts.

Since the Company has both imports as well as exports (exports are more than imports) the currency fluctuation risk is largely mitigated by matching the export inflows with import outflows. Surplus exports are hedged using simple forward exchange contracts depending on the market conditions.

The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the Profit or Loss. The exposure summarised below is mitigated by some of the derivative contracts entered into by the Company as disclosed under the section on "Derivative financial instruments". The Company does not hold derivative financial instruments for speculative purposes.

The Company's exposure to foreign currency risk at the end of the reporting period are as follows:

### Foreign Currency Sensitivity

1% increase or decrease in foreign exchange rates will have no material impact on profit.

### (v) Derivative Financial Instruments and Risk Management

The Company has entered into variety of foreign currency forward contracts to manage its exposure to fluctuations in foreign exchange rates. These financial exposures are managed in accordance with the Company's risk management policies and procedures.

The Company uses forward exchange contracts to hedge its exposures in foreign currency arising from firm commitments and highly probable forecast transactions. Forward exchange contracts that were outstanding on respective reporting dates are as follows:

Currency	Cross Currency	As At 31 March 2025					
		Buy			Sell		
		In USD	In Euro	In INR	In USD	In Euro	In INR
US Dollar	INR	0.14	-	11.55	0.31	-	26.30

Euro	US Dollar	-	-	-	-	0.01	0.69

The aforesaid hedges have a maturity of less than 1 year from the year end.

### (b) Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties, where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit risk on receivables is limited as almost all domestic sales are against advance payment or letters of credit (except sale made to PSU's) and export sales are on the basis of documents against payment or letters of credit.

Financial instruments and cash deposits Credit risk from balances with banks and investments is managed by the Company's finance department in accordance with the Company's policy. Investments of surplus fund in portfolio management services, mutual funds, alternate investment funds and direct equity are made only with approved counterparties and within credit limits assigned to each counterparty, if any. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. Balances with banks and deposits are placed only with highly rated banks/financial institution.

#### i) Financial Instruments and Deposits

For current investments, counterparty limits are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for the Company's mutual fund investments.

With respect to the Company's investing activities, counter parties are shortlisted and exposure limits determined on the basis of their credit rating (by independent agencies), financial statements and other relevant information. Taking into account the experience of the Company over time, the counter party risk attached to such assets is considered to be insignificant.

None of the Company's Cash and Cash Equivalents, including Time Deposits with banks, are past due or impaired. Regarding Loans and Other Financial Assets (both current and non-current), there were no indications as at 31 March 2024, that defaults in payment obligations will occur.

### ii) Trade Receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally carrying 30 days credit terms. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

The risk related to trade receivable is presented in note no. 16.

The credit quality of the Company's customers is monitored on an ongoing basis and assessed for impairment where indicators of such impairment exist. The Company uses simplified approach for impairment of financial assets. If credit risk has not increased significantly, 12-month expected credit loss is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime expected credit loss is used. The solvency of the debtor and their ability to repay the receivable is considered in assessing receivables for impairment. Where receivables have been impaired, the Company actively seeks to recover the amounts in question and enforce compliance with credit terms.

### (c) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the underlying business, the Company maintains sufficient cash and liquid investments available to meet its obligation.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The management also considers the cash flow projections and level of liquid assets necessary to meet these on a regular basis.

### (i) Financing Arrangements

The Company had access to the following undrawn funding facilities at the end of the reporting period:

Particulars	As at 31 March 2025	As at 31 March 2024
Expiring within one year (bank overdraft and other facilities)	74.04	76.10
	<b>74.04</b>	<b>76.10</b>

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities in INR may be drawn at any time.

### (ii) Exposure to Liquidity Risk

The Company remains committed to maintaining a healthy liquidity, net debt to equity ratio, deleveraging and strengthening the financial position. The maturity profile of the Company's financial liabilities based on the remaining period from the date of Balance Sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the Company.

### (49) Capital Management

The Company's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Company's overall strategy remains unchanged from previous year. The Company's capital management is intended to create value for shareholders by facilitating the meeting of long-term and short-term goals of the Company. The Company sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments. The funding requirements are met through a mixture of equity, internal fund generation and borrowings. The Company's policy is to use current and non-current borrowings to meet anticipated funding requirements.

The Company monitors capital on the basis of the net debt to equity ratio which is net debt divided by total equity. The Company is not subject to any externally imposed capital requirements. In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Net Debt to Equity at the end of the reporting period was as follows:

### (i) Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standards.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices as at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### (ii) Valuation Methodology

Specific valuation techniques used to value financial instruments include:

- the fair value of investment in quoted equity shares, mutual funds and Non convertible debenture is measured at quoted price or NAV.
- the fair value of investment in unquoted equity shares of National Stock Exchange (NSE) is measured by PORI Method which is corroborated using CCM Method.
- the fair value of investment in unquoted equity shares other than National Stock Exchange (NSE) is measured by using Discounting Cash Flow (DCF) Method under market approach.
- the fair value of level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date.
- All foreign currency denominated assets and liabilities are translated using exchange rate at reporting date.

### (iii) Fair value of financial assets and liabilities measured at fair value - recurring fair value measurements

The Company assessed that fair value of trade receivables, cash and cash equivalent, bank balances, loans, trade payable and other financial assets and liabilities except derivative financial instruments approximate their carrying amounts largely due to the short term maturities of these instruments. The Company's borrowings have been contracted at market rates of interest. Accordingly, the carrying value of such borrowings approximate fair value.

### (iv) Significant Estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see (ii) above.

- (c) Due to increase in profit after tax as a result of increase in other Income
- (d) Due to Purchase of Land and treatment of such land as an inventory
- (e) Due to increase in Revenue from operation and decrease in Trade Receivable.
- (f) Due to decrease in Average Trade payables.

## (55) Contingent Liabilities and Commitments

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flow.

### (56) Composite Scheme of Arrangement

The Board of Directors of Maithan Alloys Limited ("Company" or "MAL" or "Transferee Company"), at its meeting held on 5 May 2021 had considered and approved the Composite Scheme of Arrangement ("Scheme") amongst Ma Kalyaneshwari Holdings Private Limited ("MKH" or "Demerged Company" or "Transferor Company") and Anjaney Land Assets Private Limited ("ALAPL" or "Resulting Company") and the Company and their respective shareholders and creditors under Sections 230 to 232 read with Section 66 and other applicable provisions of the Companies Act, 2013. Subsequently the Board of Directors of the Company at its meeting held on 11 November 2021 had modified the Scheme to fix the 'Appointed Date' of the Scheme as 1 November 2021 and related consequential changes thereof.

Hon'ble National Company Law Tribunal, Kolkata Bench, (Hon'ble NCLT) vide its Order dated 1 February 2024 had approved the said Scheme with the 'Appointed Date' as 1 January 2024. Consequent upon filing of the said Scheme with Registrar of Companies, West Bengal, the Scheme had become effective from 8 March 2024 with an 'Appointed Date' i.e., 1 January 2024 in terms of the Order of Hon'ble NCLT. Accordingly, the effect of the scheme which is a common control transaction had been taken in the books of the Company.

Upon the scheme coming into effect, assets and liabilities relating to the Real Estate and Ancillary Business of MKH demerged into ALAPL ("Part II of the Scheme"). The aggregate of excess assets over liabilities amounting to ₹ 45.44 Cr. relating to the Real Estate and Ancillary Business of MKH was transferred to ALAPL and the cancellation of the equity shares held by MKH in the paid-up capital of ALAPL was debited to Capital Reserve ("Capital Reserve due to Demerger") w.e.f. 1 January 2024, being the Appointed date as per the NCLT Order. As a result of this demerger a Capital Reserve having a debit balance of ₹ 45.44 Cr. was created in MKH on 1 January 2024.

Post Demerger the remaining business undertaking of MKH is amalgamated with MAL ("Part III of the Scheme") and recorded for in the books of account of MAL as per "Pooling of Interest Method" as described in Appendix C of Indian Accounting Standard (Ind AS) 103- "Business Combinations" prescribed under Section 133 of the Companies Act 2013 read with relevant rules thereunder.

The Company had issued and allotted 1,72,70,176 fully paid-up equity shares of the face value of ₹ 10/- each in the proportion of the number of equity shares held by the shareholders of Transferor Company in the Transferor Company during the FY. 2024-25

Further, pursuant to the Scheme existing shares of the Company held by the Transferor Company i.e. 1,72,70,176 fully paid-up equity shares of ₹ 10/- each, were cancelled/extinguished."

Upon Amalgamation, the difference between the asset, liabilities, reserves including amalgamation adjustment account are recorded as Capital Reserve ( Amalgamation adjustment deficit account) having debit balance of ₹ 1,440.32 Cr. in the books of the Company.

# Independent Auditor's Report

To the Members of  
**Maithan Alloys Limited**

## REPORT ON THE AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS

### Opinion

We have audited the accompanying Consolidated Financial Statements of **Maithan Alloys Limited** (herein after referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at March 31, 2025, and the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS'), and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of Group, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p><b>Revenue Recognition</b></p> <p>(Refer Note No. 3 and 36 of the Consolidated Financial Statements):</p> <p>Revenue from the sale of goods (hereinafter referred to as “Revenue”) is recognised when the Holding Company performs its obligation to its customers and the amount of revenue can be measured reliably and recovery of the consideration is probable. The timing of such revenue recognition in case of sale of goods is when the control over the same is transferred to the customer. The timing of revenue recognition is relevant to the reported performance of the Holding Company. The management considers revenue as a key measure for evaluation of performance. There is a risk of revenue being recorded before control is transferred.</p> <p>We determine this to be key audit matter to our audit report due to quantum of amount involved.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>Assessed the Company's revenue recognition accounting policies in line with Ind AS 115 (“Revenue from Contracts with Customers”) and tested thereof.</li> <li>Evaluated the design, implementation and operating effectiveness of Company's controls in respect of revenue recognition.</li> <li>Tested the effectiveness of such controls over revenue cut off at year-end.</li> <li>On a sample basis, tested supporting documentation for sales transactions recorded during the year which included sales invoices, customer contracts and shipping documents.</li> <li>Performed analytical review procedures on revenue recognised during the year to identify any unusual and/or material variances</li> <li>Tested selected samples of revenue transactions recorded before and after the financial year end date to determine whether the revenue has been recognised in the appropriate financial period.</li> <li>Evaluated the appropriateness and adequacy of disclosures in the financial statements in respect of revenue recognition with the applicable standards.</li> </ul> <p>Based on above procedures, we concluded that the revenue has been recognised and measured as per IND AS 115.</p>
<p><b>Inventory Management</b></p> <p>(Refer Note No.3 and 13 of the Consolidated Financial Statements):</p> <p>The carrying value of inventory of the Holding Company as at 31 March 2025 is Rs. 588.04 crores. The inventory is valued at the lower of cost and net realizable value. We considered the value of inventory as a key audit matter given the relative size of its balance in the Consolidated Financial Statements and significant judgment involved in comparison of net realizable value with cost to arrive at valuation of inventory.</p> <p>We determine this to be key audit matter to our audit report due to quantum of amount involved.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory.</li> <li>Assessing the appropriateness of Company's accounting policy for valuation of inventory and compliance of the policy with the requirements of the prevailing Indian accounting standards.</li> <li>We considered various factors including the actual selling price prevailing around and subsequent to the year-end.</li> <li>Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value.</li> <li>Further, for the purpose of determination of physical quantity of the inventory as at the year end, physical verification was done by the management of the Company along with independent third party and we have relied upon their report.</li> <li>The existence and cost of the land bank have been verified with reference to the respective underlying documents.</li> </ul> <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.</p>

Descriptions of Key Audit Matter	How we addressed the matter in our audit
<p><b>Existence and Valuation of Investment</b></p> <p>(Refer Note No. 3, 9 and 14 of the Consolidated Financial Statements):</p> <p>The Holding company holds Current and Non-Current Investments amounting to Rs 1,977.82 crores and Rs 1076.01 crores respectively which represents 62.98% of total assets as at March 31, 2025. The Investments comprise of mutual funds, quoted equity shares, unquoted equity shares, alternate investment funds and investment through portfolio management service (PMS). The investments being financial instruments needs to be appropriately designated at fair value through profit or loss, fair value through other comprehensive income (not to be reclassified) or at amortized cost. Further, these financial instruments need to be valued and classified as Level 1, 2 or 3 financial instruments as per the fair value hierarchy.</p> <p>We determine this to be key audit matter to our audit report due to quantum of amount involved.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>• We understood, assessed and tested the design and operating effectiveness of key controls surrounding fair valuation of investments.</li> <li>• We have verified the broker's demat holding statements, statement of account, pms portfolio holding statements as at march 31, 2025 for equity shares, mutual funds, alternative investment funds, and PMS investments to confirm the existence and ownership of the company's investment portfolio.</li> <li>• We have assessed the independence and competence of the valuation expert appointed by the management.</li> <li>• We have verified on sample basis the fair valuation of all investments held as at march 31, 2025 to the net assets value provided by the respective mutual funds and alternate investment funds, market value of quoted equity shares from source data, valuation of unquoted equity shares from report issued by valuation expert engaged by management, market value of investment made in PMS through its holding statement. and tested the arithmetical accuracy of the calculation of valuation of investments.</li> <li>• Assessed adequate disclosures in financial statements in respect of investment.</li> </ul> <p>Based on the audit procedures performed, we are satisfied with valuation and existence of current and non-current investments.</p>

**Information Other than the Consolidated Financial Statements and Auditor's report thereon**

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the Consolidated Financial Statements and our and other auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and Board of Directors for the Consolidated Financial Statements**

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective

Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

## **Auditor's Responsibility for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Consolidated

Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Other Matters**

We did not audit the financial statements of seven subsidiaries, whose financial statements reflect total assets of Rs. 607.48 crores and net assets of Rs. 121.08 crores as at March 31, 2025, total revenues of Rs. 171.23 crores, total net loss after tax of Rs. 6.56 crores, total comprehensive income of Rs. # Annexure “B” to the Independent Auditor's Report

(Referred to in paragraph 2 (g) under ‘Report on Other Legal and Regulatory Requirements’ section of our Independent Auditor’s Report of even date to the members of Maithan Alloys Limited on the Consolidated Financial Statements as of and for the year ended March 31, 2025)

## **Report on the Internal Financial Controls with reference to Consolidated Financial Statements under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

1. In conjunction with our audit of the Consolidated Financial Statements of the Group as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference Consolidated financial statements of Maithan Alloys Limited (hereinafter referred to as “the Holding Company”) and its subsidiaries which are companies incorporated in India, Based on comments made by the independent auditors of the subsidiary companies incorporated in India(covered entities) with respect to the internal financial controls with reference to Financial Statements of respective subsidiaries, as of that date.

## **Management’s Responsibility for Internal Financial Controls**

2. The respective Board of Directors of the Holding Company, its subsidiaries which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control with reference to Consolidated Financial Statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“the ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **Auditor’s Responsibility**

3. Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding company and subsidiaries which are companies incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to Consolidated Financial Statement of the Holding Company, its subsidiary companies, which are companies incorporated in India.

## **Meaning of Internal Financial Control with reference to Consolidated Financial Statements**

6. A Company’s internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements

## **Inherent Limitation of Internal Financial Control with reference to Consolidated Financial Statements**

7. Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

8. In our opinion to the best of our information and according to the explanations given to us and based on the consideration of other auditors referred to in the Other Matters paragraph below, the Holding Company, its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with

reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to Consolidated Financial Statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Other Matters**

9. Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Financial Statements insofar as it relates to 8 subsidiary company which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not modified in respect of the above matters.

### 1. Corporate Information

Maithan Alloys Limited ("the Company" / "Holding Company") is a public company domiciled in India limited by shares, and it's incorporated on 19 September 1985 under the provisions of the Companies Act applicable in India. Its shares are listed on Calcutta Stock Exchange (CSE) and the National Stock Exchange (NSE) and are traded on Bombay Stock Exchange (BSE) under Permitted category. The Group is primarily engaged in the business of manufacturing and exporting of all three bulk Ferro alloys- Ferro Manganese, Silico Manganese and Ferro Silicon. It is also engaged in the generation and supply of Wind Power and has a Captive Power Plant. During the current financial year, Group has entered into new business segment of real estate constructions/ real estate development.

### 2. Statement of compliance and basis of preparation of Financial Statements

#### 2.1 a. Statement of Compliance

These ('financial statements') of the Group have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 ("the Act") read with Rule 4A of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards), as amended, and other relevant provisions of the Companies Act, 2013 ("the Act"). The accounting policies are applied consistently to all the periods presented in the financial statements. The Consolidated Financial Statements presents the Financial Position of the Group.

#### b. Basis of Preparation

The financial statements have been prepared on the going concern basis and at historical cost and on accrual method of accounting, except for certain financial assets and liabilities that are measured at fair value/ amortised cost. (Refer note 3(j) below).

Historical cost is the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire assets at the time of their acquisition, or the amount of proceeds received in exchange for the obligation, or at the amount of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

#### c. Functional Currency and Presentation Currency

The financial statements are prepared in Indian Rupees (₹) which is the functional currency of the Group and the currency of the primary economic environment in which the Group operates and all values are rounded to the nearest crores, upto 2 decimal places except as otherwise indicated.

#### d. Current and Non-Current Classification

All assets and liabilities are classified as current or non-current as per the Group's normal operating cycle (twelve months) and other criteria set out in the schedule III to the Companies Act, 2013 and Ind AS 1 - 'Presentation of Financial Statements'.

All assets and liabilities are classified as current when it is expected to be realized or settled within the Group's normal operating cycle, i.e. twelve months. All other assets and liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current only.

#### e. Application of New Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During the year ended 31 March 2025, MCA has notified Ind AS 117 - Insurance Contracts and amendments to Ind AS 116 - Leases, relating to sale and lease back transactions, applicable from 1 April 2024. The Company has assessed that there is no significant impact on its financial statements.

On 9 May 2025, MCA notifies the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after 1 April 2025. The Company is currently assessing the probable impact of these amendments on its financial statements.

### 2.2 Basis of Consolidation

#### a. Subsidiary

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which controls commences until the date on which control ceases.

#### b. Non-Controlling Interest (NCI)

Non-controlling interest in the net assets of the consolidated subsidiaries consists of:

- The amount of equity attributable to non-controlling shareholders at the date on which the investments in the subsidiary companies were made.
- The non-controlling share of movements in equity since the date the Parent-Subsidiary relationship comes into existence.

The total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interest having deficit balance.

#### c. Loss of Control

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in the Statement of Profit and Loss.

### d. Transaction Eliminated on Consolidation

The financial statements of the Company, its Subsidiaries, Joint Ventures and Associates used in the consolidation procedure are drawn upto the same reporting date, i.e., 31st March 2023.

The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together of like items of assets, liabilities, income and expenses, after eliminating material intra-group balances and intra-group transactions and resulting unrealised profits or losses on intra-group transactions. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

### e. Business Combinations

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the fair values of assets transferred on acquisition-date, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values on acquisition-date.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the excess is recognized capital reserve.

Contingent consideration is classified either as equity or financial liability. Amount classified as financial liability are subsequently re-measured to fair value with changes in fair value recognized in Statement of Profit and Loss.

### f. Asset Acquisition

In case of acquisition of an asset or a group of assets that does not constitute a business, the Group identified and recognises individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost of the group shall be allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

## 3. Summary of Material Accounting Policies

### a. Property, Plant and Equipments

Property, plant and equipment are stated at their cost of acquisition, installation or construction less accumulated depreciation and impairment losses, if any, except freehold land which is stated at cost less impairment losses if any.

The cost of property, plant and equipment comprises its purchase price, and any cost directly attributable to bringing the asset to working condition and location for its intended use. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Stores and spare parts are capitalised when they meet the definition of property, plant and equipment. The corresponding old spares are decapitalised on such date with consequent impact in the statement of profit & loss.

Subsequent expenditures on major maintenance or repairs includes the cost of the replacement of parts of assets and overhaul costs are included in the asset's carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

If significant parts of an item of property, plant and equipment have different useful life, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, expenditure towards major inspections and overhauls are identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

An item of PPE is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of PPE, is determined as the difference between the sales proceeds and the carrying amount of the asset, and is recognised in Statement of Profit and Loss. Major inspection and overhaul expenditure is capitalized, if the recognition criteria are met.

Capital work in progress comprises expenditure for acquisition and construction of tangible assets that are not yet ready for their intended use. Costs, net of income, associated with the commissioning of the asset are capitalized until the period of commissioning has been completed and the asset is ready for its intended use. At the point when the asset is capable of operating in the manner intended by the management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Such items are classified to the appropriate category of property, plant and equipment when completed and ready for their intended use. Advances given towards acquisition/construction of property, plant and equipment outstanding at each balance sheet date are disclosed as Capital Advances under "Other non-current assets".

### b. Depreciation

Depreciation on property, plant and equipment is provided on straight line method (SLM), except on Building and Plant & Machineries of Ferro Alloys Unit at Byrnihat and Kalyaneshwari on which depreciation has been provided on written down value (WDV) method.

Depreciation commences when the assets are ready for their intended use. Depreciated assets and accumulated depreciation amounts are retained fully until they are removed/retired from active use.

Depreciation is provided to allocate the costs of property, plant and equipment, net of their residual values, over their useful life as specified in Schedule II of the Companies Act, 2013, other than in case of factory building and plant & machinery in Visakhapatnam Unit where useful life has been considered by the management to be of 20 years.

The assets residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed during each financial year and adjusted prospectively, if appropriate. In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

### c. Leases

The Group has applied Ind AS 116 "Leases" with effect from 1st April 2019. The Group assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration, to assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether

- the contract involves the use of identified asset;
- the Group has substantially all of the economic benefits from the use of the asset through the period of lease; and
- the Group has the right to direct the use of the asset.

#### *As a Lessee*

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are initially measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the initial amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are subsequently depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. The estimated useful lives of right of-

use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if Group changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### *Short-term leases and leases of low-value assets*

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or lower and leases of low value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

### d. Intangible Assets and Amortization

Intangible assets acquired separately are, on initial recognition, measured at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The

amortization period and the amortization method for intangible asset with a finite useful life are reviewed at the end of each reporting period.

Intangible assets with infinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash generating unit level. The assessment of infinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

**A Summary of the policies applied to the Group's intangible assets is, as follows:**

Intangible assets	Amortization Method Used
Mining rights	Over the period of respective mining agreement
Software	Amortized on a straight-line basis over the useful life.

The amortisation period and the amortisation method are reviewed at each financial year end, if the expected useful life of the asset is different from previous estimates; the change is accounted for prospectively as a change in accounting estimate.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

**e. Goodwill**

Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units or groups of cash-generating units that are expected to benefit from the synergies of the combination. Cash generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit's value may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying value of the unit, the impairment loss is allocated first to reduce the carrying value of any goodwill allocated to the unit and then to the other assets of the unit in proportion to the carrying value of each asset in the unit.

An impairment loss recognised for goodwill is not reversed in a subsequent period. On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of profit or loss on disposal.

**f. Non-Current Assets Held for Sale**

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised.

A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of derecognition.

Non-current assets and disposal groups classified as held for sale are not depreciated and are measured at the lower of carrying amount and fair value less costs to sell except for those assets that are specifically exempt under relevant Ind AS. Once the assets are classified as "Held for sale", those are not subjected to depreciation till disposal. Such assets and disposal groups are presented separately on the face of the Balance Sheet.

**g. Impairment of Non-Financial Assets**

The Group assesses at the end of each reporting period the carrying amounts of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, then an impairment review is undertaken and an impairment loss, if any, is recognized in the statement of profit and loss wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs of disposal and the asset's value in use. In case, where it is not possible to estimate the recoverable amount of an individual non-financial asset, the Group estimates the recoverable amount for the smallest cash generating unit to which the non-financial asset belongs.

Fair value less costs of disposal is the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effect of factors that may be specific to the entity and not applicable to entities in general. Value in use is determined as the present value of the estimated future cash flows expected to arise from the continued use of the asset in its present form and its eventual disposal.

Impairment charges and reversals are assessed at the level of cash-generating unit (CGU). A cash-generating unit (CGU) is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets.

A cash generating unit is treated as impaired when the carrying amount of the assets or cash generating unit exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the period in which asset or cash generating unit is identified as impaired.

Impairment loss recognised in prior accounting period(s) is reversed when there is an indication that the impairment losses

recognised no longer exist or have decreased. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation, if there was no impairment. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

### h. Government Grants and Subsidies

Grants and subsidies from the Government are recognized when there is reasonable assurance that the grant/subsidy will be received and the Group will comply with the conditions attached to them. When the grant relates to an expense item, it is recognised in the Statement of Profit and Loss by way of a deduction to the related expense on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate. When the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related assets and presented within other income.

In the unlikely event that a grant previously recognized is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss. When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates and is being recognised in the Statement of Profit and Loss. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

### i. Foreign Currency Translation

Foreign currency transactions are translated into the functional currency at the exchange rates that approximates the rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies outstanding at the end of the reporting period are translated into the functional currency at the exchange rates prevailing on the reporting date. Non-monetary items are translated using the exchange rates prevailing on the transaction date, subsequently measured at historical cost and not retranslated at period end.

All exchange differences on monetary items are recognized in the Statement of Profit and Loss.

### j. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through the statement of profit and loss) are added or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through the statement of profit and loss are recognized immediately in the statement of profit and loss.

#### (i) Financial Assets

The Group's financial assets comprise:

- a. Current financial assets mainly consist of trade receivables, investments in liquid equity shares, mutual funds, non-convertible debenture, alternate investment fund, portfolio management service, cash and bank balances, fixed deposits with banks and financial institutions and other current receivables.
- b. Non-current financial assets mainly consist of financial investments in equity, bond, alternate investment fund, fixed deposits, non-current receivables from related party and employees and non-current deposits.

#### - Recognition and Initial Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are added to fair value. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

#### - Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at Amortized Cost;
- Financial assets at Fair Value Through Other Comprehensive Income (FVOCI);
- Financial assets at Fair Value Through Profit or Loss (FVTPL); and

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

#### - Financial assets at Amortized Cost: A 'financial assets' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Financial assets comprises of current financial assets such as trade receivables, cash and bank balances, fixed deposits with bank and financial institutions, other current receivables and non-current financial assets such as financial investments - fixed deposits. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment, if any are recognised in the statement of profit and loss.

- *Financial assets at FVOCI: A 'financial assets' is measured at the FVOCI if both of the following conditions are met:*
  - The objective of the business model is achieved by collecting contractual cash flows and selling the financial assets; and
  - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in Other Comprehensive Income. However, the interest income, impairment losses & reversals, and foreign exchange gains and losses are recognised in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in other comprehensive income is reclassified from the equity to statement of profit and loss. Interest earned whilst holding fair value through other comprehensive income debt instrument is reported as interest income using the EIR method.

For equity instruments, the Group may make an irrevocable election to present subsequent changes in the fair value in OCI. If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

- *Financial assets at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as FVTPL.*

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL, if such designation reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with any gains and losses arising on re-measurement are recognized in the Statement of Profit and Loss.

- *Equity Instruments: Any equity investments instruments in the scope of Ind AS 109 "Financial Instruments" are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified at cost.*

For equity instruments which are classified as FVTPL, all subsequent fair value changes are recognised in the statement of profit and loss.

- > *Financial Assets-derecognition*  
The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred and the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in other equity is recognised in Consolidated Statement of Profit and Loss.

- > *Impairment of Financial Assets*  
Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period.

In case of financial assets, the Group follows the simplified approach permitted by Ind AS 109 - Financial Instruments - for recognition of impairment loss allowance. The application of simplified approach does not require the Group to track changes in credit risk of trade receivable. The Group calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

### (ii) Financial Liabilities

- > *Recognition And Initial Measurement*  
The Group recognises a financial liability in its balance sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and borrowings including bank overdrafts and derivative financial instruments.

- > *Subsequent Measurement*  
Financial liabilities are measured subsequently at amortized cost or FVTPL.

#### *Financial liabilities at FVTPL*

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through

profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. These gains/ losses are not subsequently transferred to the statement of profit and loss. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Group has not designated any financial liability as at fair value through profit or loss.

Further, the provisionally priced trade payables are marked to market using the relevant forward prices for the future period specified in the contract and is adjusted in costs.

Financial liabilities at amortised cost (Borrowings and Trade and Other payables)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR (Effective Rate Interest) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR (Effective Rate Interest) amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in profit or loss.

> **Financial Liabilities- derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

> **Equity Instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

> **Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must

not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

**(iii) Derivative Financial Instruments**

The Group enters into forward contracts to mitigate the risk of changes in exchange rates. The Group does not hold derivative financial instruments for speculative purposes. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value with changes in fair value recognized in the Statement of Profit and Loss in the period when they arise. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

**k. Inventories**

Inventories are valued after providing for obsolescence, as follows:

1. Raw materials, stores and spare parts, fuel and packing material:

These are considered to be realisable at cost, if the finished products, in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis and includes purchase price, other costs incurred in bringing the inventories to their present location and condition, and taxes for which credit is not available. However, materials and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

2. Work-in-progress, finished goods and stock in trade:

These are valued at the lower of cost and net realisable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Cost of finished goods and Work-in-progress includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity, but excluding borrowing costs. Cost of Stock-in-trade is determined on weighted average basis and includes cost of purchase and other cost incurred in bringing the inventories in the present location and condition.

Obsolete, defective, slow moving and unserviceable inventories, if any, are identified at the time of physical verification and where necessary, they are duly provided for.

3. Inventories are valued as under: Land Bank- It consists of asset purchased by the Group that it intends to develop later on into residential / commercial project but on which no construction has commenced. Land is initially recognized at cost which is generally the cost or net realizable value whichever is less. However, it is discounted to present value when payment terms are deferred for a period of more than one year.

**l. Revenue Recognition**

The Group is primarily engaged in the manufacturing of Ferro Alloys and generate revenue from the sale of the product.

### (i) Revenue from Operation

Revenue from sale of product is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the product.

At contract inception, the Group assess the goods promised in a contract with a customer and identifies as a performance obligation of each promise to transfer to the customer. Revenue from contracts with customers is recognized when control of goods is transferred to customers and the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration and excluding taxes or duties collected on behalf of the Government.

#### For Certain Contracts

Certain of the Group's sales contracts provide for provisional pricing based on the price on the Commodity Research Unit (CRU), as specified in the contract. Revenue in respect of such contracts is recognised when control passes to the customer and is measured at the amount the entity expects to be entitled - being the estimate of the price expected to be received at the end of the measurement period. Post transfer of control. of goods, provisional pricing features are accounted in accordance with Ind AS 109 'Financial Instruments' rather than Ind AS 115 'Revenue from contracts with customers' and therefore the Ind AS 115 rules on variable consideration do not apply. These 'provisional pricing' adjustments i.e. the consideration adjusted post transfer of control are included in total revenue from operations. Final settlement of the price is based on the applicable price for a specified future period. The Group's provisionally priced sales are marked to market using the relevant forward prices for the relevant period specified in the contract and is adjusted in revenue.

#### a. Sale of Goods

Sale of goods is recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions. As the period between the date on which the Group transfers the promised goods to the customer and the date on which the customer pays for these goods is generally one year or less, no financing components are taken into account.

#### b. Sale of Services

In contracts involving the rendering of services, revenue is measured using the completed service method.

### c. Revenue Recognition of Real Estate segment

In real estate development contracts, individual items are sold separately in market and add value to the customer on an individual basis. Therefore, these services are considered as separate performance obligations.

Revenue for 'sale of property' is recognized when control over the property has been transferred to the customer. Revenue is recognized at a point in time when the possession is handed over to the customer including deemed possession.

Where, the Group enters into a contract for sale of undeveloped/developed land revenue for which is recognised when possession is handed over and the control is transferred to the customer

### c. Other Operating Revenue

Export incentive and subsidies are recognised when there is reasonable assurance that the Group will comply with the conditions and the incentive will be received. Insurance & other claims, where quantum of accruals cannot be ascertained with reasonable certainty are recognised as income only when revenue is virtually certain which generally coincides with receipt/acceptance.

### (ii) Other Income

- a) Interest income is recognized using the effective interest rate method. For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.
- b) Dividend Income is recognised only when the right to receive payment is established.

### m. Employee Benefits

#### a) Short-Term Benefits

Short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized as an expense at the undiscounted amount in the statement of profit and loss of the period in which the related service is rendered.

Accumulated compensated absences, which are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service, are treated as short term employee benefits. The Group measure the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlements that has accumulated at the reporting date.

#### b) Defined Contribution Plans

Employee benefits in the form of contribution Provident Fund managed by Government Authorities and Employee State Insurance Corporation are considered as defined contribution plans and the same are charged to the statement of profit and loss for the period in which the employee renders the related services.

### c) *Defined Benefit Plans*

The Group's gratuity fund scheme and post-employment benefits scheme are considered as defined benefit plans. The Group's liability is determined on the basis of actuarial valuation using the projected unit credit method as at the balance sheet date.

Past service costs are recognized in the statement of profit and loss on the earlier of:

- The date of plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. The Group recognizes the following changes in the statement of profit and loss:

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Re-measurements comprising actuarial gains and losses, the effect of asset ceiling (if any), and the return on the plan assets (excluding net interest), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods.

### d) *Compensated absences*

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation.

Actuarial gains and losses relating to long-term and short-term employee benefits are recognised in the statement of Profit and Loss in the period in which they arise.

## n. **Taxation**

Income tax expense represents the sum of current tax and deferred tax and includes any adjustments related to past periods in current and/or deferred tax adjustments that may become necessary due to certain developments or reviews during the relevant period. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in Equity or Other Comprehensive Income.

### a) *Current Tax*

Current income tax is measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and the tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to income tax is included in other income.

Current tax relating to the items recognized outside the statement of profit and loss is recognized in correlation to the underlying transaction either in OCI or directly in other equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

### b) *Deferred Tax*

Deferred tax is recognized on all temporary differences between the tax bases of assets and liabilities and their carrying amounts in the Group's financial statements except when the deferred tax arises from the initial recognition of goodwill or initial recognition of an asset or liability in a transaction that is not a business combination and affects neither the accounting nor taxable profits or loss at the time of transaction. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax assets are recognized for deductible temporary differences, the carry forward of unused tax credits and unused tax losses to the extent it is probable that future taxable profits will be available against which the deductible temporary difference, the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when the same relate to items that are recognised in Other Comprehensive Income or directly in Equity, in which case, the current and deferred tax relating to such items are also recognised in Other Comprehensive Income or directly in Equity respectively.

### o. **Borrowing Costs**

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised, if any. All other borrowing costs are expensed in the period in which they occur.

**p. Cash and Cash Equivalents**

Cash and cash equivalents consist of cash on hand, cash at banks, fixed deposits and short-term highly liquid investments with an original maturity of three months or less.

For the purpose of presentation in the statement of cash flows, cash and cash equivalent includes cash on hand, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash, cash at bank and bank overdraft which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the Balance Sheet.

**q. Cash Flow Statement**

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

**r. Provisions, Contingent Liabilities and Contingent Assets**

*Provisions*

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Group has a present obligation (legal or constructive), as a result of a past event, and it is probable that an outflow of resources will be required to settle such an obligation and the amount can be estimated reliably. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

*Contingent Liabilities*

Contingent liabilities are possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that arises from past events is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. Contingent Liabilities are not recognized but disclosed in the financial statements when the possibility of an outflow of resources embodying economic benefits is more.

*Contingent Assets*

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognised.

**s. Earnings per share**

Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. Partly paid up shares are included as fully paid equivalents according to the fraction paid-up.

Diluted earnings per share are computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

**t. Dividends**

Dividends paid are recognised in the period in which the dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders and is recognised directly in other equity.

**u. Segment Reporting**

Operating segment is reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM). The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group. Inter-segment revenues have been accounted for based on prices normally negotiated between the segments with reference to the costs, market prices and business risks, within an overall optimization objective for the Group. Revenue and expenses are identified with segments on the basis of their relationship to the operating activities of the segment. Revenue and expenses, which relate to the Group as a whole and are not allocable to segments on a reasonable basis, will be included under "Unallocated/ Others".

**v. Exceptional items**

Exceptional items are those items that management considers, by virtue of their size or incidence should be disclosed separately to ensure that the financial information allows an understanding of the underlying performance of the business in the year, so as to facilitate comparison with prior periods. Such items are material by nature or amount to the year's result and require separate disclosure in accordance with Ind AS.

**w. Key Accounting Estimates and Judgments**

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, and disclosures of contingent assets and liabilities at the date of the financial statements and the results of

operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed in the paragraphs that follow.

(i) *Useful Economic Lives and Impairment of Other Assets*

The estimated useful life of property, plant and equipment (PPE) and intangible asset is based on a number of factors including the effects of obsolescence, usage of the asset and other economic factors (such as known technological advances).

The Group reviews the useful life of PPE and intangibles at the end of each reporting date and any changes could affect the depreciation rates prospectively.

The Group also reviews its property, plant and equipment for possible impairment if there are events or changes in circumstances that indicate that the carrying value of the assets may not be recoverable. In assessing the property, plant and equipment for impairment, factors leading to significant reduction in profits, such as the Group's business plans and changes in regulatory environment are taken into consideration.

(ii) *Contingencies and Commitments*

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Group. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

Although there can be no assurance regarding the final outcome of the legal proceedings, the Group does not expect them to have a materially adverse impact on the Group's financial position or profitability.

(iii) *Actuarial Valuation*

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognized in the Statement of Profit and Loss and in Other Comprehensive Income. Such valuation depend on assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.

(iv) *Fair Value Measurements and Valuation Processes*

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in the notes to the financial statements.

(v) *Recognition of Deferred Tax Assets For Carried Forward Tax Losses*

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilised. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

(vi) *Assessment of Impairment of investments in subsidiaries*

The Group reviews its carrying value of investments in subsidiaries, associates and joint ventures annually, or more frequently when there is indication for impairment.

If the recoverable amount is less than its carrying amount, the impairment loss is accounted for. Determining whether the investment in subsidiaries, associates and joint ventures is impaired requires an estimate in the value in use of investments. The Management carries out impairment assessment for each investment by comparing the carrying value of each investment with the net worth of each Group based on audited financials, comparable market price and comparing the performance of the investee companies with projections used for valuations, in particular those relating to the cash flows, sales growth rate, pre-tax discount rate and growth rates used and approved business plans.

### (48) Employee Benefit Obligations

#### (i) Defined Contribution Plans

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident and Pension Fund and Employee State Insurance ('ESI') which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are recognised in the Standalone Statement of Profit and Loss as they accrue.

Particulars	Year Ended 31 March 2025	Year Ended 31 March 2024
The followings recognized in the Statement of Profit and Loss		
Contribution to Employee's State Insurance Corporation	0.20	0.20
Contribution to employees provident fund	1.04	0.96

### (ii) Defined Benefit Plans

Particulars	As at 31 March 2025		As at 31 March 2024	
	Current	Non-Current	Current	Non-Current
Leave Encashment	0.07	0.54	0.03	0.50
Gratuity	0.50	2.86	0.21	3.04

The defined benefit plans expose the Group to a number of actuarial risks as below:

- Interest Risk : A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the value of plan's debt investments.
- Salary risk : The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.
- Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability."
- Inflation risk: Some of the Group's Pension obligations are linked to inflation, and higher inflation will lead to higher liabilities although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation.

### (iii) Leave Encashment

The liabilities for leave encashment are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the Projected Unit Credit Method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Other comprehensive income.

### (49) Financial Risk Management

The Group has a system-based approach to risk management, anchored to policies & procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Group's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulations. It also seeks to drive accountability in this regard.

The Group's financial liabilities includes Borrowings, Trade payables and Other financial liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include Investment, Trade receivables, Cash & cash equivalents and Other financial assets that are derived directly from its operations.

It is the Company's policy that derivatives are used exclusively for hedging purposes and not for trading or speculative purposes.

### (iii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in the market interest rates relates primarily to the Company's borrowings obligations with floating interest rates. The borrowings of the Company are principally denominated in Indian Rupees linked to MCLR with floating rates of interest. The Company invests surplus funds in short-term deposits and mutual funds, some of which generate a tax-free return, to achieve the Company's goal of maintaining liquidity, carrying manageable risk and achieving satisfactory returns.

The exposure of the Company's financial liabilities to interest rate risk is as follows:

Particulars	As at 31 March 2025	As at 31 March 2024
<b>From Bank</b>		
- Cash Credit from Bank	15.28	13.90
- Working Capital Demand Loan	15.96	-
<b>From Others</b>		
- Flexi Loan	280.00	-
Buyers Credit	265.51	-
<b>Total</b>	<b>576.75</b>	<b>13.90</b>

### Sensitivity

Profit or loss is sensitive to higher/ lower interest expense from borrowings as a result of changes in interest rates as below:

Particulars	Impact on Profit Before Tax	
	31 March 2025	31 March 2024
Interest expense rates – increase by 50 basis points (P.Y. 2024: 50 bps)*	(2.88)	(0.07)
Interest expense rates – decrease by 50 basis points (P.Y. 2024: 50 bps)*	2.88	0.07

\* Holding all other variables constant

### (iv) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency denominated borrowings, creditors and debtors. This foreign currency risk is covered by using foreign exchange forward contracts. Since the Company has both imports as well as exports (exports are more than imports) the currency fluctuation risk is largely mitigated by matching the export inflows with import outflows. Surplus exports are hedged using simple forward exchange contracts depending on the market conditions. The hedge mechanisms are reviewed periodically to ensure that the risk from fluctuating currency rates is appropriately managed. The following analysis is based on the gross exposure as at the reporting date which could affect the Profit or Loss. The exposure summarised below is mitigated by some of the derivative contracts entered into by the Company as disclosed under the section on "Derivative financial instruments". The Company does not hold derivative financial instruments for speculative purposes.

The Company's exposure to foreign currency risk at the end of the reporting period are as follows:

### Foreign Currency Sensitivity

1% increase or decrease in foreign exchange rates will have no material impact on profit.

### (v) Derivative Financial Instruments and Risk Management

The Company has entered into variety of foreign currency forward contracts to manage its exposure to fluctuations in foreign exchange rates. These financial exposures are managed in accordance with the Company's risk management policies and procedures.

The Company uses forward exchange contracts to hedge its exposures in foreign currency arising from firm commitments and highly probable forecast transactions. Forward exchange contracts, designated under hedging, that were outstanding on respective reporting dates are as follows:

Currency	Cross Currency	As At 31 March 2025					
		Buy			Sell		
		In USD	In Euro	In INR	In USD	In Euro	In INR
US Dollar	INR	0.14	-	11.55	0.31	-	26.30

Euro	US Dollar	-	-	-	-	0.01	0.69

The aforesaid hedges have a maturity of less than 1 year from the year end.

### (b) Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties, where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit risk on receivables is limited as almost all domestic sales are against advance payment or letters of credit (except sale made to PSU's) and export sales are on the basis of documents against payment or letters of credit. Financial instruments and cash deposits Credit risk from balances with banks and investments is managed by the Company's finance department in accordance with the Company's policy. Investments of surplus fund in portfolio management services, mutual funds, alternate investment funds and direct equity are made only with approved counterparties and within credit limits assigned to each counterparty, if any. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. Balances with banks and deposits are placed only with highly rated banks/financial institution.

#### i) Financial Instruments and Deposits

For Current Investments, counterparty limits are in place to limit the amount of credit exposure to any one counterparty. This, therefore, results in diversification of credit risk for the Group's mutual fund investments.

With respect to the Group's investing activities, counter parties are shortlisted and exposure limits determined on the basis of their credit rating (by independent agencies), financial statements and other relevant information. Taking into account the experience of the Group over time, the counter party risk attached to such assets is considered to be insignificant.

None of the Group's Cash and Cash Equivalents, including Time Deposits with banks, are past due or impaired. Regarding Trade Receivables, Loans and Other Financial Assets (both current and non-current), there were no indications as at 31 March 2024, that defaults in payment obligations will occur.

## ii) Trade Receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally carrying 30 days credit terms. Outstanding customer receivables are regularly monitored. The Group has no concentration of credit risk as the customer base is widely distributed both economically and geographically. The risk related to trade receivable is presented in note no. 15

The credit quality of the Group's customers is monitored on an on going basis and assessed for impairment where indicators of such impairment exist. The Group uses simplified approach for impairment of financial assets. If credit risk has not increased significantly, 12-month expected credit loss is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime expected credit loss is used. The solvency of the debtor and their ability to repay the receivable is considered in assessing receivables for impairment. Where receivables have been impaired, the Group actively seeks to recover the amounts in question and enforce compliance with credit terms.

## (c) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the underlying business, the Group maintains sufficient cash and liquid investments available to meet its obligation.

Management monitors rolling forecasts of the Group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The management also considers the cash flow projections and level of liquid assets necessary to meet these on a regular basis.

## (i) Financing Arrangements

The Company had access to the following undrawn funding facilities at the end of the reporting period:

Particulars	As at 31 March 2025	As at 31 March 2024
Expiring within one year (bank overdraft and other facilities)	94.72	76.10
	<b>94.72</b>	<b>76.10</b>

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities in INR may be drawn at any time.

## (ii) Exposure to Liquidity Risk

The Group remains committed to maintaining a healthy liquidity, net debt to equity ratio, deleveraging and strengthening the financial position. The maturity profile of the Group's financial liabilities based on the remaining period from the date of Balance Sheet to the contractual maturity date is given in the table below. The figures reflect the contractual undiscounted cash obligation of the Group.

### (50) Capital Management

The Group's objectives when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to shareholders through continuing growth. The Group's overall strategy remains unchanged from previous year. The Group's capital management is intended to create value for shareholders by facilitating the meeting of long-term and short-term goals of the Group. The Group sets the amount of capital required on the basis of annual business and long-term operating plans which include capital and other strategic investments. The funding requirements are met through a mixture of equity, internal fund generation and borrowings. The Group's policy is to use current and non-current borrowings to meet anticipated funding requirements.

The Group monitors capital on the basis of the net debt to equity ratio which is net debt divided by total equity. The Group is not subject to any externally imposed capital requirements. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

### (i) Fair Value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices as at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### (ii) Valuation Methodology

Specific valuation techniques used to value financial instruments include:

- the fair value of investment in quoted equity shares, mutual funds and Non convertible debenture is measured at quoted price or NAV.
- the fair value of investment in unquoted equity shares of National Stock Exchange (NSE) is measured by PORI Method which is corroborated using CCM Method.
- the fair value of investment in unquoted equity shares other than National Stock Exchange (NSE) is measured by using Discounting Cash Flow (DCF) Method under market approach.
- the fair value of level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date.
- All foreign currency denominated assets and liabilities are translated using exchange rate at reporting date.

### (iii) Fair value of financial assets and liabilities measured at fair value - recurring fair value measurements

The Group assessed that fair value of trade receivables, cash and cash equivalent, bank balances, loans, trade payable and other financial assets and liabilities except derivative financial instruments approximate their carrying amounts largely due to the short term maturities of these instruments. The Company's borrowings have been contracted at market rate of interest. Accordingly, the carrying value of such borrowings approximate fair value.

## (iv) Significant Estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions see (ii) above.

## Reconciliation of level 3 fair value measurements

### (56) Contingent Liabilities and Commitments

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an on going basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flow.

\*Pertains to a case pending before the Hon'ble Meghalaya High Court relating to retrospective electricity charges where the Hon'ble Court has reserved its order and the likelihood of any resultant financial outflow is assessed as remote.

The amounts shown above represent the possible estimates arrived at on the basis of available information. The uncertainties and timing of the cash flows are dependent on the outcome of different legal processes which have been invoked by the Company or the claimants, as the case may be and, therefore, cannot be estimated accurately. The Company does not expect any reimbursement in respect of above contingent liabilities.

In the opinion of the management, no provision is considered necessary for the disputes mentioned above on the ground that there are fair chances of successful outcome of the appeals.

### (57) Composite Scheme of Arrangement

The Board of Directors of Maithan Alloys Limited ("Company" or "MAL" or "Transferee Company"), at its meeting held on 5 May 2021 had considered and approved the Composite Scheme of Arrangement ("Scheme") amongst Ma Kalyaneshwari Holdings Private Limited ("MKH" or "Demerged Company" or "Transferor Company") and Anjaney Land Assets Private Limited ("ALAPL" or "Resulting Company") and the Company and their respective shareholders and creditors under Sections 230 to 232 read with Section 66 and other applicable provisions of the Companies Act, 2013. Subsequently the Board of Directors of the Company at its meeting held on 11 November 2021 had modified the Scheme to fix the 'Appointed Date' of the Scheme as 1 November 2021 and related consequential changes thereof.

Hon'ble National Company Law Tribunal, Kolkata Bench, (Hon'ble NCLT) vide its Order dated 1 February 2024 had approved the said Scheme with the 'Appointed Date' as 1 January 2024. Consequent upon filing of the said Scheme with Registrar of Companies, West Bengal, the Scheme had become effective from 8 March 2024 with an 'Appointed Date' i.e., 1 January 2024 in terms of the Order of Hon'ble NCLT. Accordingly, the effect of the scheme which is a common control transaction had been taken in the books of the Company.

Upon the scheme coming into effect, assets and liabilities relating to the Real Estate and Ancillary Business of MKH demerged into ALAPL ("Part II of the Scheme"). The aggregate of excess assets over liabilities amounting to ₹ 45.44 Cr. relating to the Real Estate and Ancillary Business of MKH was transferred to ALAPL and the cancellation of the equity shares held by MKH in the paid-up capital of ALAPL was debited to Capital Reserve ("Capital Reserve due to Demerger") w.e.f. 1 January 2024, being the Appointed date as per the NCLT Order. As a result of this demerger a Capital Reserve having a debit balance of ₹ 45.44 Cr. was created in MKH on 1 January 2024.

Post Demerger the remaining business undertaking of MKH is amalgamated with MAL ("Part III of the Scheme") and recorded for in the books of account of MAL as per "Pooling of Interest Method" as described in Appendix C of Indian Accounting Standard (Ind AS) 103- "Business Combinations" prescribed under Section 133 of the Companies Act 2013 read with relevant rules thereunder.

The Company had issued and allotted 1,72,70,176 fully paid-up equity shares of the face value of ₹ 10/- each in the proportion of the number of equity shares held by the shareholders of Transferor Company in the Transferor Company during the FY. 2024-25

Further, pursuant to the Scheme existing shares of the Company held by the Transferor Company i.e. 1,72,70,176 fully paid-up equity shares of ₹ 10/- each, were cancelled/extinguished.

Upon Amalgamation, the difference between the asset, liabilities, reserves including amalgamation adjustment account are recorded as Capital Reserve ( Amalgamation adjustment deficit account) having debit balance of ₹ 1,440.32 Cr. in the books of the Company.

The details of assets, liabilities and reserve transfer from Demerged Company are as follows:
